BEFORE YOU START

Ready to get started? To begin working towards the AA-DTA degree, you simply need to apply and be accepted to CBC. You can apply online at www.columbiabasin.edu

ABOUT THE PROGRAM

Engineering refers to any type of science concerned with the design, construction and use of machines, systems and structures. It's a vast field that has applications in nearly every industry, from manufacturing and production to shipping and construction. Engineers of various types were likely involved in the home you live in, the building you work at, the bridges you drive over and the products that you buy. If you're interested in problem solving, experimentation and machine development, a career in engineering may suit you.

OUT OF CLASS TO DO'S

- Contact your instructors and/or the CBC Career Services Center to find an internship, observation/shadowing experience, or a job in the field of engineering.
- Research transfer schools of interest with your Completion Coach.
- Visit the Academic Success Center for quiet study space, small group study, supplemental instruction and tutoring assistance.

CAREER OPPORTUNITIES

You can turn your CBC associate degree into a bachelor's degree in a wide variety of engineering areas of study at a four-year institution of your choice.

Whether you're working on the cutting edge of innovation or keeping vital, day-to-day power and communications running smoothly for your community, engineering is one of the most essential areas of study in today's world.
