

Wireless Network Configuration on Mac

System Requirements:

Mac OS Version 10.7, 10.8, 10.9

Procedure:

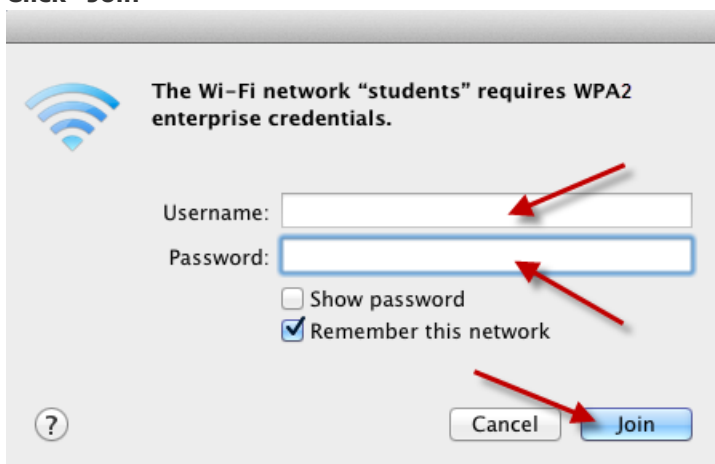

1. Turn Wi-Fi On (if not on already)

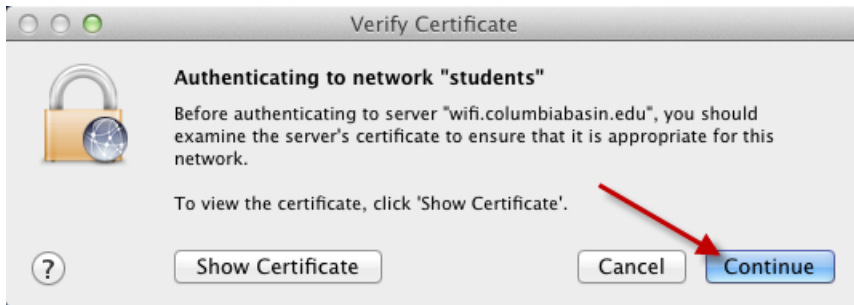

2. Click "students"

3. Type your student ID number in the Username field
4. Type your PIN (6 digit number) in the Password field
5. Click "Join"

6. Click "Continue"

7. Type your computer's username and password (username may be already present)

8. Click "Update Settings"

Congratulations! Your computer is now configured to use the CBC wireless network.
