

Windows 8 Wireless Connection for Staff

Open the **Charm Bar** (Move the pointer to the bottom right corner of your monitor, then move the pointer up to be able to select a charm.)| Click **Settings**

Click on **Control Panel**

Click on **Network and Sharing Center**

Click on **Set up a new connection or network**

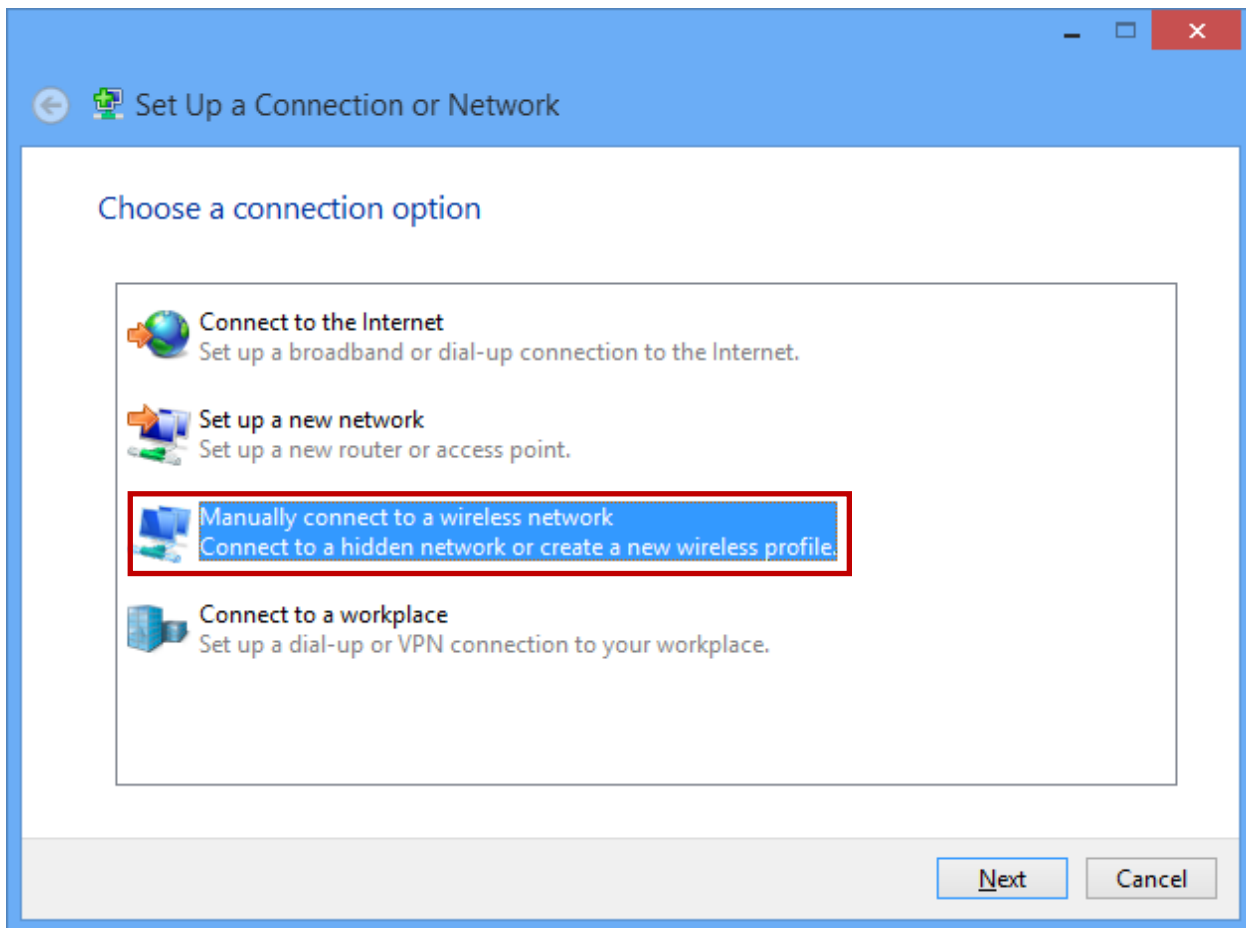

Change your networking settings

Set up a new connection or network

Set up a broadband, dial-up, or VPN connection; or set up a router or access point.

Click on **Manually connect to a wireless network**

Manually connect to a wireless network

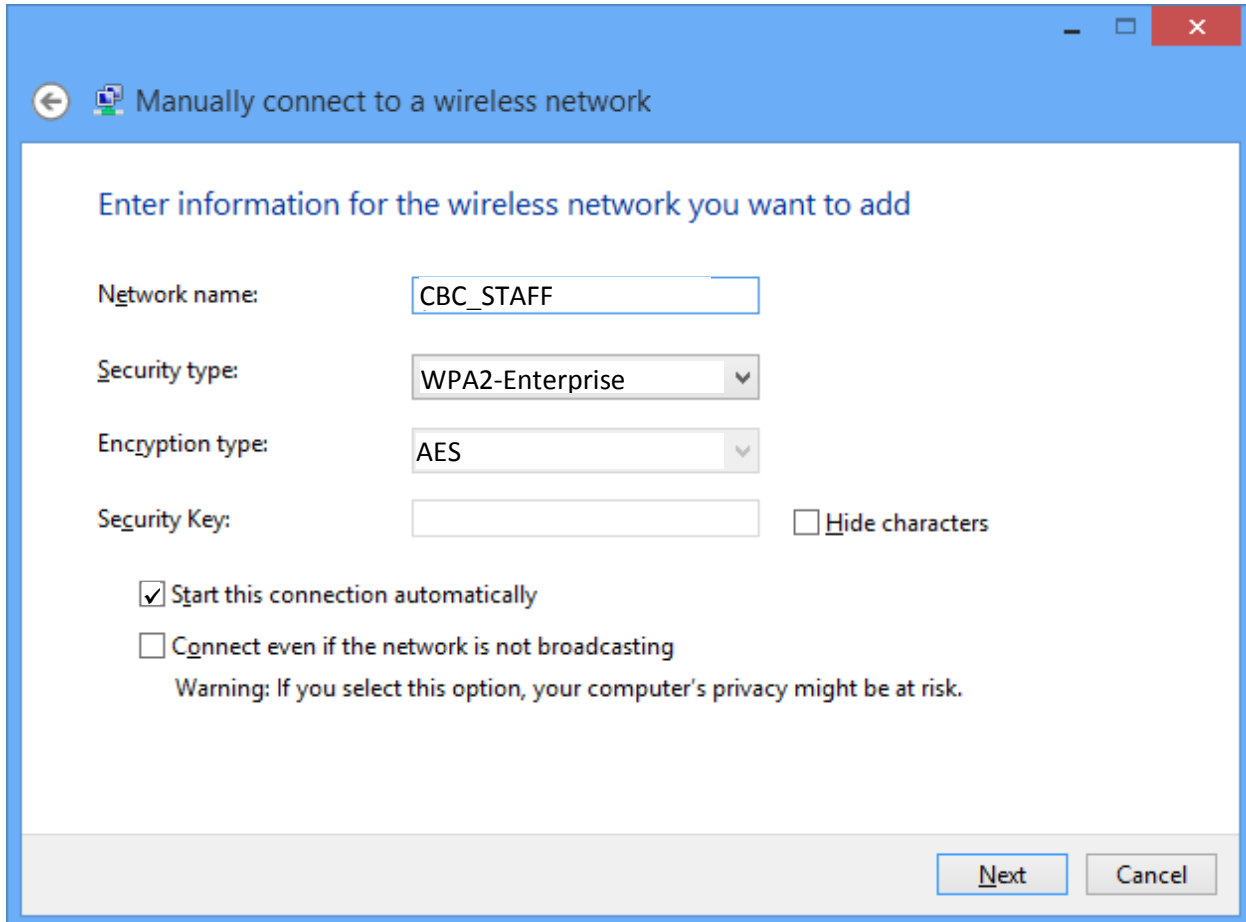

Network name: **CBC_STAFF**

Security type: **WPA2-Enterprise**

Encryption type: **AES**

Check **Start this connection automatically**

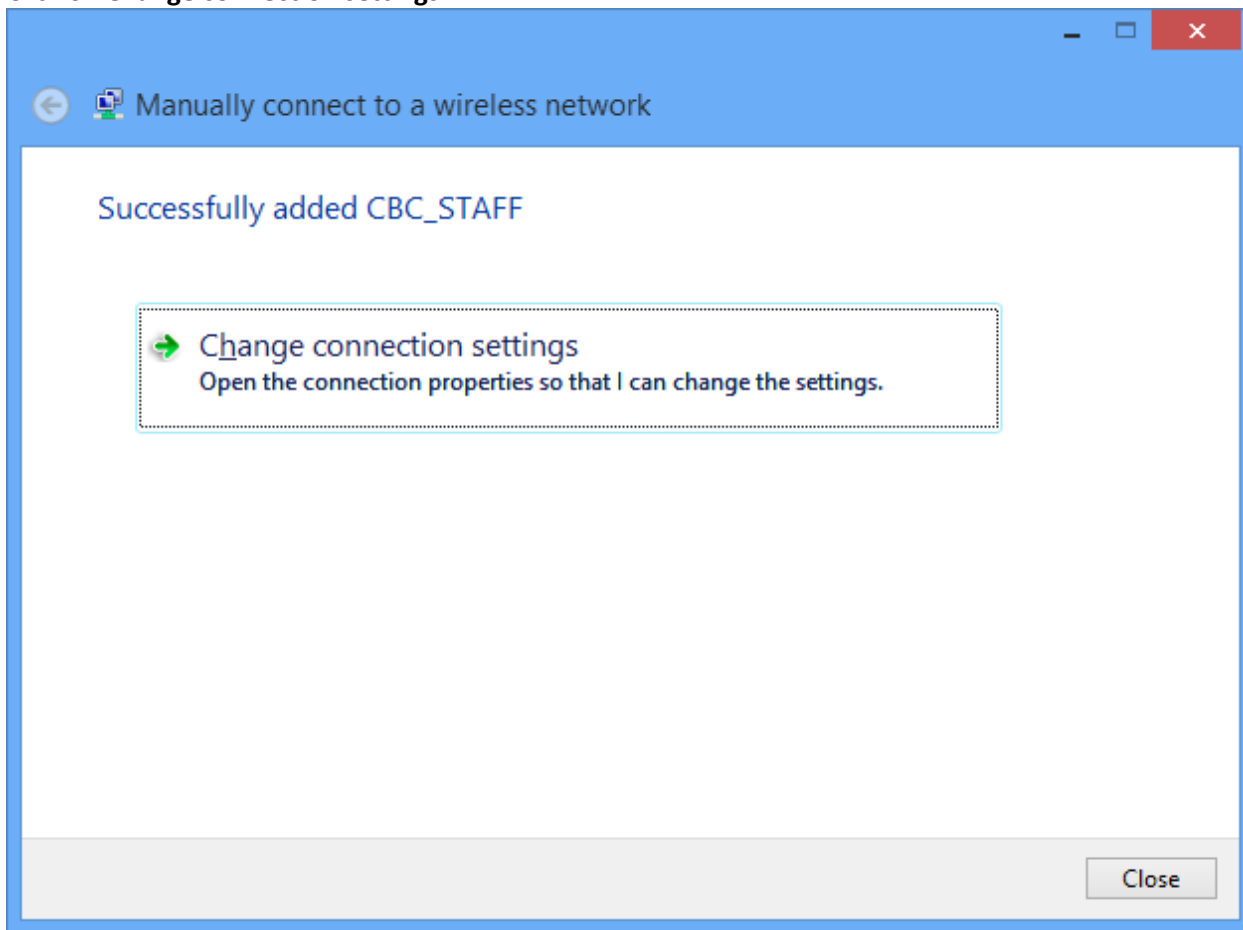

Click **Next**

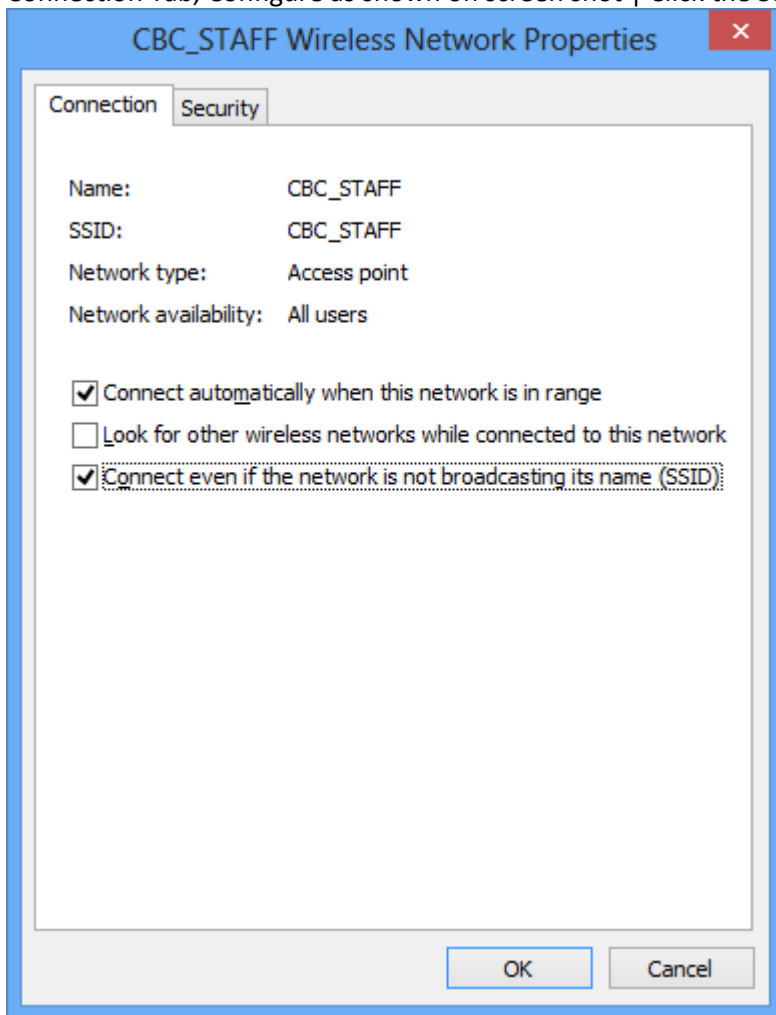

The image shows a Windows dialog box titled "Manually connect to a wireless network". The dialog has a blue header bar with a back arrow icon and the title text. Below the header, the main content area is white and contains the following elements:

- A heading: "Enter information for the wireless network you want to add"
- A "Network name:" label followed by a text input field containing "CBC_STAFF".
- A "Security type:" label followed by a dropdown menu showing "WPA2-Enterprise".
- An "Encryption type:" label followed by a dropdown menu showing "AES".
- A "Security Key:" label followed by an empty text input field and a checkbox labeled "Hide characters".
- Two checkboxes:
 - Start this connection automatically
 - Connect even if the network is not broadcasting
- A warning message: "Warning: If you select this option, your computer's privacy might be at risk."
- At the bottom right, there are two buttons: "Next" and "Cancel".

Successfully added CBC_STAFF
Click on **Change connection settings**

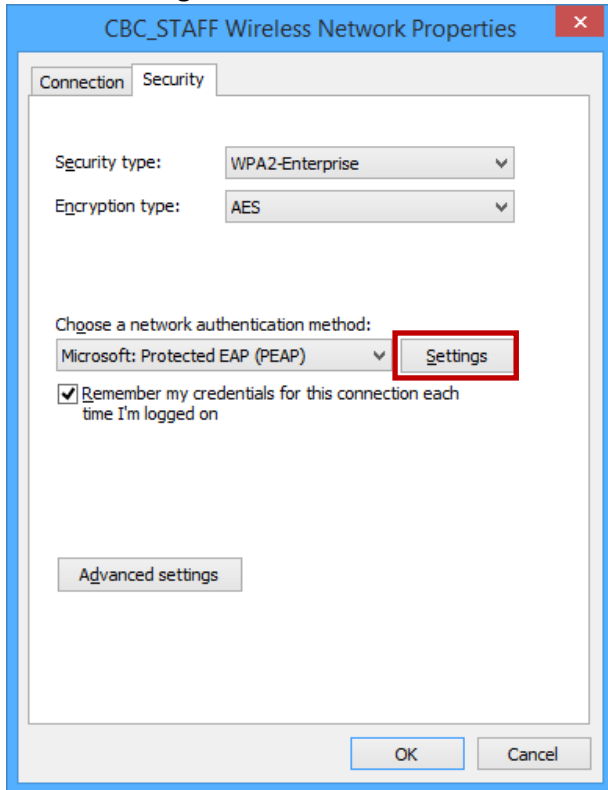

Connection Tab, Configure as shown on screen shot | Click the **Security** tab

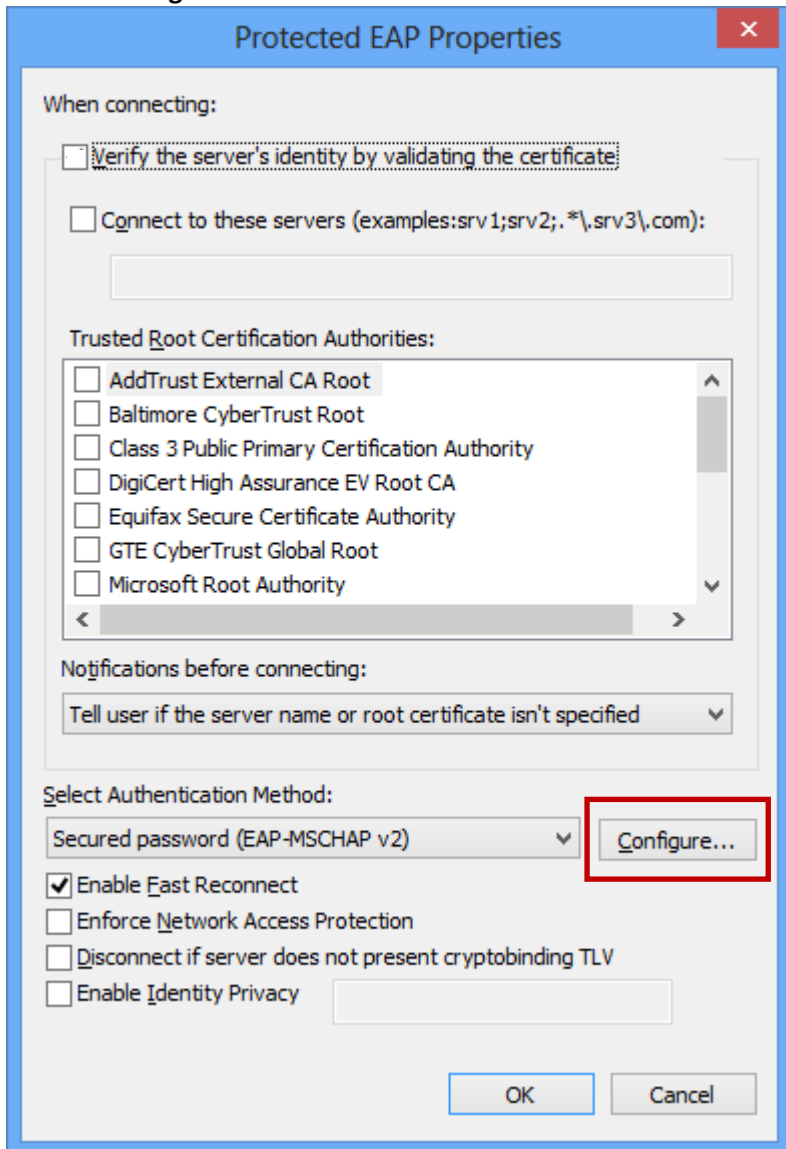

Security Tab

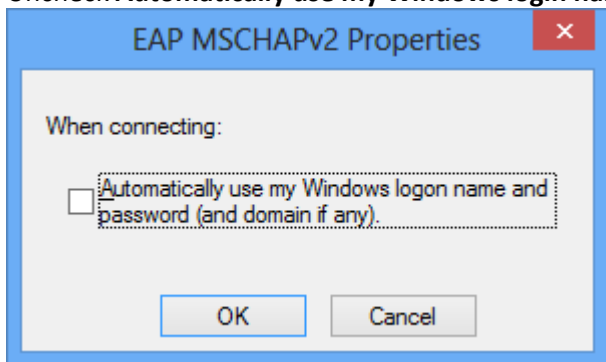

Click on **Settings** button

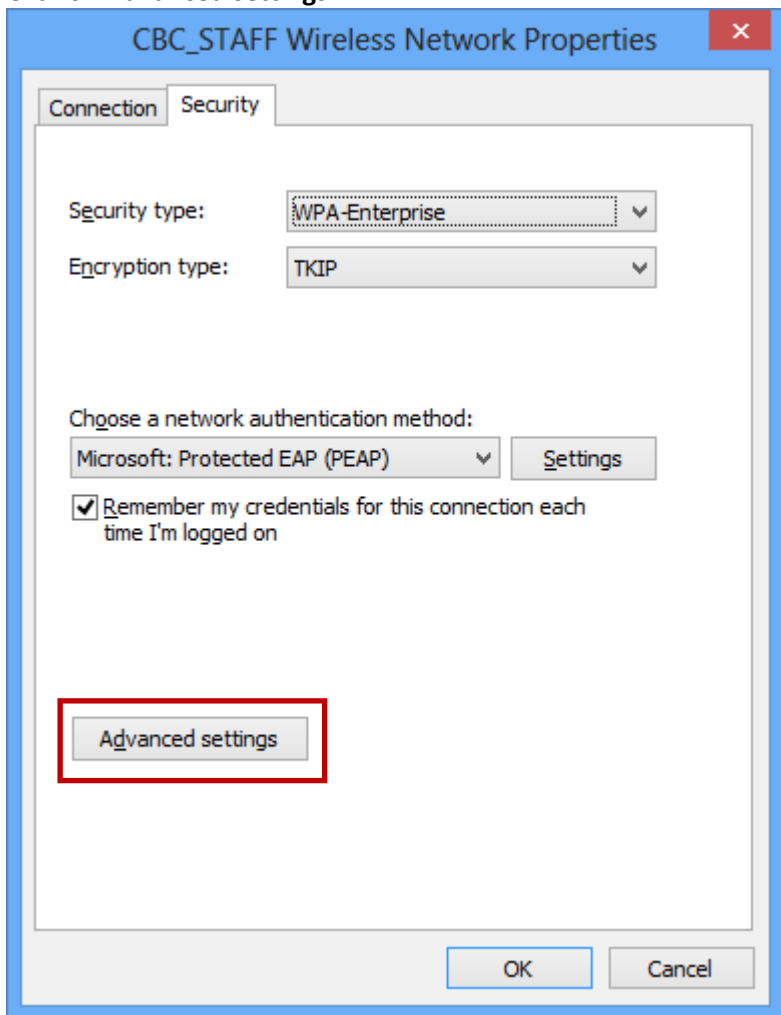

Uncheck **Verify the server' identity by validating the certificate**
Click on **Configure** button

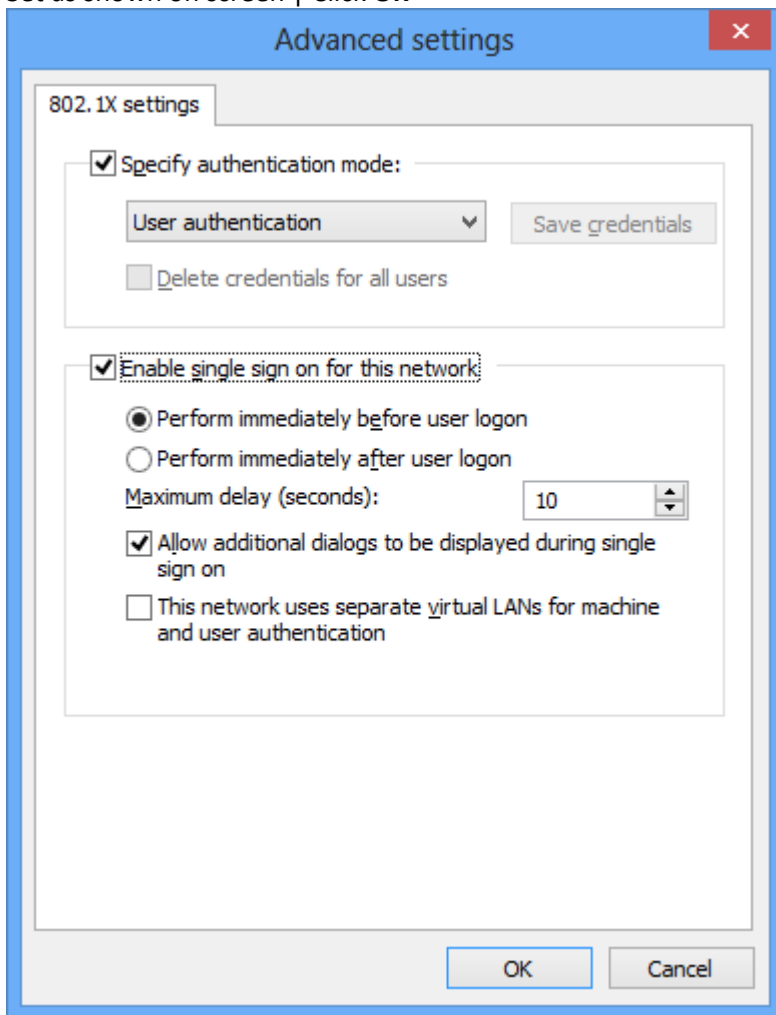

Uncheck **Automatically use my Windows login name and password** | Click **OK**

Click on **Advanced settings**

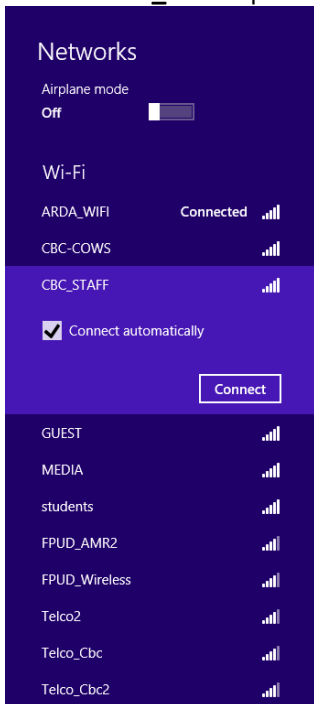

Set as shown on screen | Click **OK**

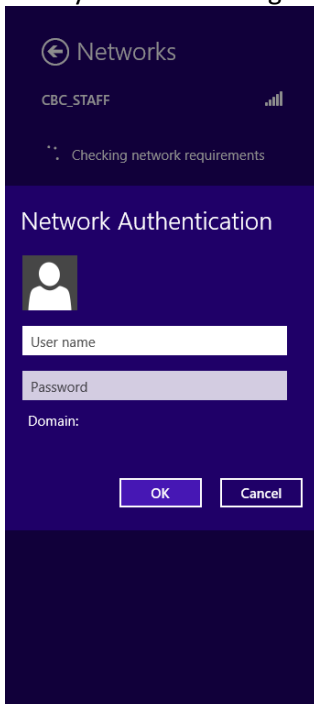

Click on the **Network connection icon**

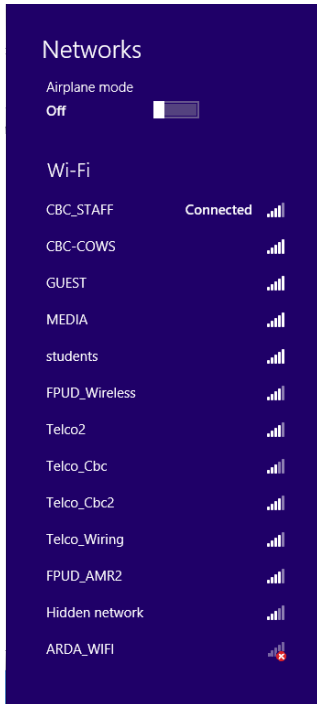

Click on **CBC_STAFF** | Click **Connect**

Enter your CBC user login information (this is the same as your work computer or Outlook login) | Click **OK**

You are now connected

If you need to edit the settings:

Right-click on CBC_STAFF and go to **View connection properties**
