

Phlebotomy Course Application

Course Information
Winter/Spring 2015

Introduction

The phlebotomy curriculum is a two-course sequence which prepares individuals with the knowledge, skills, and abilities necessary to function as a member of a laboratory healthcare team in a variety of settings. This training fulfills the Washington state Department of Health (DOH) requirements necessary to be certified as a healthcare professional in a category of Medical Assistant-Phlebotomist.

Details are available online at www.doh.wa.gov/LicensesPermitsandCertificates/ProfessionsNewReneworUpdate/MedicalAssistant/ApplicationsandForms.aspx.

Phlebotomy training is a two-course sequence. In the first course, Phlebotomy 100 (PHLEB 100), students must achieve a 75 percent average or better on testing as well as pass the required lab skills competencies to continue into the second course, Phlebotomy 1001 clinical practicum).

Malpractice fees are mandatory for all Health Science students and will be added to the registration fees.

Applicants are required to provide the following documentation:

- Certificate of Completion for seven hours of HIV/AIDS Bloodborne Pathogen Training
- A current American Heart Association CPR card for Healthcare Provider
- A current First Aid card

Once admitted into the program, each student will be responsible for providing documentation of the following additional requirements:

- Program specific immunization records (details provided with admission into the program).
- Satisfactory criminal history background check using a college-approved vendor. Criminal history background information is required of all Health Science students. Information obtained will be considered in determining student eligibility to complete clinical coursework. Inability to participate in clinical experiences due to the information obtained from the background check may result in the student's inability to satisfactorily complete the Phlebotomy program requirements. Any infraction while enrolled in the Phlebotomy program should be self-reported to the coordinator/director. Questions regarding this policy should be directed to the Dean of Health Science Center at 509.544.8310.

After review of applications, applicants will be mailed a letter informing them of their status. More information can be obtained from the Health Sciences Center office at 509.544.8300

Licensing and Certification

Washington State Department of Health (DOH) has adopted new codes for healthcare licensing. Effective July 1, 2013, a new category of Medical Assistant-Phlebotomist requires fees of \$115 with your official College transcript listing Phlebotomy courses with passing grades to be included with your DOH application to license.

This course work may qualify the student to test with American Society of Clinical Pathologists (ASCP.org) as a Phlebotomy Technician. This process requires additional expense and documentation, details are available online.

Program application with attachments must be submitted to the CBC Student Records Office or Health Science Center by the deadline. Address mail to the following:

Columbia Basin College
Student Records Office, MS-H4
2600 N. 20th Ave.
Pasco, WA 99301

or

Columbia Basin College
Health Science Center, MS-R2
2600 North 20th Ave.
Pasco, WA 99301

For questions, contact Health Science Center at (509) 544-8300.

Phlebotomy Course Application Application Process

The following minimum applicant requirements must be met for students applying to the Phlebotomy program:

Please submit the program application by the listed due date. Late applications will not be considered.

An application committee will review all submissions to confirm the course criteria has been met. Prior college coursework, Asset/Compass placement score, letters of reference, prior experience in healthcare, and other factors may be used to prioritize applicants.

An interview may be conducted with candidates to finalize the application process. There are usually twice as many candidates as seats available.

Applicants will be notified by mail regarding his/her application status. Applicants who are not selected may reapply during the next application period.

If Applicant is selected, there are due dates for submission of required health documentation and a background search by the college-approved vendor. Program expenses are listed on the last page of this package.

For additional information or assistance related to these application requirements, please contact the Health Science Center office at (509) 544-8300.

Phlebotomy Course Competencies and Expectations

Phlebotomists work in a variety of healthcare settings such as, hospitals, blood banks, doctor offices, or outpatient laboratories. Students are required to collect blood and other specimen types from patients for analysis or other medical purposes. Students will become proficient in the various blood collection methods using supplies such as tourniquets, needles, syringes, multi-sample systems, and correctly handling and packaging of sharps containers. Students will be required to follow all policies and procedures set forth by clinical agencies laboratory standards as well as College policies and protocol.

Students must establish a working knowledge of patient identification practices and HIPPA requirements. Phlebotomists will understand and navigate computer programs as related to their position. Students will exhibit the highest standard of professionalism when it comes to interacting with patients and every healthcare worker while in lecture, lab, and clinical hours.

Students will work with patients of various age spans and must be able to relate and alleviate fear of any procedure. The following is a brief list of some functions students are expected to perform while in the phlebotomy lecture, lab, or clinical setting:

- * drawing of blood or access a vein on all patient demographics and ages
- * process specimens that are collected and prepare these specimens for transportation
- * provide clear instructions to patients about other collection techniques
- * draw blood from patients; by finger stick from children and adults, by heel stick from infants
- * knowledge to test for donor screening or rapid test results (Point of Care Testing)
- * conduct interviews and take vital signs for donors at a blood bank

Minimum Entrance Requirements for the Phlebotomy Program

- A. Meet college admission criteria as stated in the College Catalog prior to applying for application into the program.
- B. Students must have one of the following;
 - an ASSET/COMPASS score that places them into Math 83 or higher, English 98 or higher, and Reading 99 or higher.
 - a college transcript with 2.0 grade or higher
- C. Students must be able to pass a typing test with a minimum requirement of 25 wpm. Students must be able to demonstrate a basic understanding of computers.
- D. Include a copy of your current **American Heart Association** Healthcare Provider and a First Aid card.
- E. Include copy of your documentation verifying seven hours of HIV/AIDS Bloodborne Pathogens training.
7-hour training is available at no cost at the CBC Library. Call for hours at Pasco campus (509) 542-4458 or Richland campus (509) 544-8336. You do need to view and complete the DVD training series and self-exam in the library, materials do not leave the library.

General Information for Accepted Students

Once students have been accepted into the program, the following information will be helpful to guide them with other requirements necessary to maintain enrollment.

- A. Student study requirements have been found to be a minimum of three hours per week for each scheduled theory credit hour.
- B. All Health Science students must have a current American Heart Association Healthcare provider and a first aid card for the duration of enrollment.
- C. After acceptance, students are required to submit a national criminal history search, and upload your immunization history using the College-approved vendor. All students must provide results of a yearly tuberculin skin test by the due date listed and comply with all program and College policies, and evidence of currency of required immunizations.
- D. All students must successfully complete required courses with a 75 percent or higher to remain enrolled in the Phlebotomy course sequence.
- E. Attendance is vitally important to successfully complete the Phlebotomy certificate. Students must adhere to the attendance policy.
- F. Scholarships and loans may be available through the Financial Aid office, worker retraining, or opportunity grant. For more information, contact that office and review the Columbia Basin College website (columbiabasin.edu).
- G. All students are encouraged to have accident/health insurance. A student injury and sickness insurance plan is available to purchase. Forms are available from the campus Cashier's office or the Health Science Center office.
- H. All students are required to have malpractice insurance, this is not accident/health insurance. The policy will be included with tuition at the time of registration.

For additional information or assistance related to these entrance requirements, please contact the Health Science Center office.

The following information has been provided to help applicants have a clear understanding of the variety of tasks associated with being a phlebotomist in the healthcare environment. The following materials have been provided by the United States Department of Labor Dictionary of Occupational Titles. The description provided may not be inclusive of all duties and responsibilities any individual employer may require of a person employed as a phlebotomist.

Title: Phlebotomist

Code: 079.364-022

Description: Draws blood from patients or donors in hospital, blood bank, or similar facility for analysis or other medical purposes. Assembles equipment such as tourniquet, needles, disposable containers for needles, blood collection devices, gauze, cotton, and alcohol on work tray, according to requirements for specified tests or procedures. Verifies or records identity of patient or donor and converses with patient or donor to allay fear of procedure.

Applies tourniquet to arm, locates accessible vein, swabs puncture area with antiseptic, and inserts needle into vein to draw blood into collection tube or bag. Withdraws needle, applies treatment to puncture site, and labels and stores blood container for subsequent processing. May prick finger to draw blood. May conduct interviews, take vital signs, and draw and test blood samples to screen donors at blood bank.

GOE: 02.04.02 STRENGTH: L GED: R3 M2 L3 SVP: 3 DLU: 88

The following information has been provided to inform students of the variety of skills and abilities required of a phlebotomist.

Skills

Active Listening: Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.

Speaking: Talking to others to convey information effectively.

Instructing: Teaching others how to do something.

Social Perceptiveness: Being aware of others' reactions and understanding why they react as they do.

Reading Comprehension: Understanding written sentences and paragraphs in work-related documents.

Active Learning: Understanding the implications of new information for both current and future problem-solving and decision-making.

Service Orientation: Actively looking for ways to help people.

Time Management: Managing one's own time and the time of others.

Learning Strategies: Selecting and using training/instructional methods and procedures appropriate for the situation when learning or teaching new things.

Writing: Communicating effectively in writing as appropriate for the needs of the audience.

Abilities

Oral Comprehension: The ability to listen to and understand information and ideas presented through spoken words and sentences.

Oral Expression: The ability to communicate information and ideas in speaking so others will understand.

Speech Clarity: The ability to speak clearly so others can understand you.

Near Vision: The ability to see details at close range (within a few feet of the observer).

Information Ordering: The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).

Problem Sensitivity: The ability to tell when something is wrong or is likely to go wrong.

Speech Recognition: The ability to identify and understand the speech of another person.

Written Comprehension: The ability to read and understand information and ideas presented in writing.

Written Expression: The ability to communicate information and ideas in writing so others will understand.

Deductive Reasoning: The ability to apply general rules to specific problems to produce answers that make sense.

Phlebotomy Course Application

Winter/Spring Application – No Program Fee

First day to submit is September 4th
Last day to submit is October 23rd

Demographic Information

Last Name	First	Middle	Previous Name(s)	
Address		City	State	Zip
Phone	Alternative Phone	Birth Date	CBC Student ID Number	
High School Attended		Date Graduated	Location	

Prerequisites for Admissions *Attach Copy of Each*

Seven-Hour HIV/AIDS Bloodborne Pathogens Training Certificate completed	<input type="checkbox"/> Yes	<input type="checkbox"/> No	Provider	Date completed
American Heart Association Healthcare Provider CPR	<input type="checkbox"/> Yes	<input type="checkbox"/> No	Provider	Date of Expiration
First Aid Card Completed	<input type="checkbox"/> Yes	<input type="checkbox"/> No	Provider	Date of Expiration
Do you have previous experience in healthcare?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	Position and Location	
Have you attached a letter of reference?	<input type="checkbox"/> Yes	<input type="checkbox"/> No		

Financial Assistance

Will financial assistance be necessary to complete the program? Yes No

(Note: Consideration for program acceptance is not based on any financial needs.)

I certify the above information is accurate and complete. I agree to comply with program requirements before clinical hours will be allowed. I have read the course expectations and competencies and understand these criteria will determine my grade and if I will be able to attend clinical assignments. I understand that attendance is mandatory.

Accepted Student Health Record Guidelines
Health Science Center
Effective January 13, 2013

REQUIRED IMMUNIZATIONS:	
TUBERCULIN TEST (PPD)	<p>A two-step process is required for compliance with clinical facilities. The two-step method should be completed if:</p> <ul style="list-style-type: none"> • You have no history of a TB test • You have not followed through with a yearly TB test and you are over due <p>This two step method includes the following:</p> <ol style="list-style-type: none"> 1. Obtain TB skin test #1 2. Have test #1 read within designated time 3. Obtain TB test #2 within 2-3 weeks of first test 4. Have test #2 read within designated time 5. Provide documentation of two tests to Columbia Basin College. <p>If at any time, the PPD is positive, the student must go to the Benton County Public Health for follow up. The student will need to provide documentation of their visit from the health department. The TB test is to be repeated yearly from the date of the last (2nd) test.</p> <p>*If currently working in a position that requires yearly TB testing and you receive your annual TB test prior to the expiration date, you do not need to complete TB test #2.</p> <p>The Quantiferon TB Gold whole blood test is provided by many facilities. If you obtain this test, it will meet the requirements for the two-step TB testing and negates the need for the TB tine test.</p>
HEPATITIS B (HBV)	<p>Documentation that the HBV vaccine series has been initiated prior to entry of any Health Science program or documentation of the completed vaccine series (3 injections). If no documentation is available and the student states they have received the series, the student will sign a verification of immunization form, and will be required to obtain a titer and follow up with an HBV booster if results are non-immune. Further follow-up may be required but will be reviewed on an individual basis.</p>
MEASLES, MUMPS, AND RUBELLA (MMR)	<p>Students born in or after 1957 must provide documentation of:</p> <ol style="list-style-type: none"> a. administration of two doses of live measles, mumps, and rubella virus vaccine or b. laboratory evidence of immunity (MMR titer) <p>Students born before 1957 must provide documentation of immunity (titer) and if no documentation is available, one dose of MMR is required.</p>
VARICELLA VACCINE (Chicken pox)	<p>Documentation of disease history or immunizations. Students who are relying on history will sign a Verification of Disease form. Students who are unsure of their history must obtain laboratory evidence of immunity (varicella titer) or provide proof of two doses of varicella vaccine, separated by 4-8 weeks.</p>
TETANUS, DIPHTHERIA, AND PERTUSSIS TOXOIDS COMBINED (Tdap)	<p>Documentation for a Tdap immunization prior to entering any Health Science program. Those with a documented Td immunization within the past two years are exempt from obtaining the Tdap, but must provide documentation of their Td. If >2 yrs since the Td, you will be required to obtain a Tdap. The Tdap is good for 10 years.</p>
INFLUENZA	<p>Influenza vaccine is mandatory for all Health Science students. Those students who are unable to receive the vaccine need to fill out a waiver and follow the facility policy for wearing respiratory protection. Proof of immunization needs to be provided yearly before entering any clinical facility.</p>
RECOMMENDED VACCINES:	
HEPATITIS A (HAV)	<p>A combination HBV and HAV vaccine (Twinrix) is now available. This vaccine is administered in a three-dose series.</p>
POLIO	<p>Students should have completed a primary series of polio vaccinations.</p>
MENINGOCOCCAL	<p>Meningococcal vaccine is highly recommended for all healthcare workers.</p>

Pregnant students should seek advice from their healthcare provider regarding their immunizations. Your note from attending nurse or doctor is required.

2014 Estimated Phlebotomy Certificate Student Expenses

The following is an estimate of common expenses for students.

	Item	Cost Estimated
1.	CBC Tuition Phlebotomy 100 is 44 hours	4 credits
	CBC Tuition Phlebotomy 100.1 is 120 hours	5 credits
		\$1,061
2.	National background search and immunization tracker fee (by college-approved vendor)	\$97
3.	Scrub suit by first week from CBC Bookstore	\$33 (approximate)
4.	Vaccinations (estimated) costs will vary depending upon the history you have available.	\$100 - \$400
5.	Textbooks (CBC Bookstore)	\$130 (approximate)
6.	CBC Clinical ID badge by 4th week (Admissions desk – 1 st free)	\$3.50 replacement
7.	Shoes (not open toe, or clogs)	Variable
8.	Watch with second hand	Variable
9.	1 small notebook (3")	Variable
10.	Black ink pens	Variable
11.	Washington State license requirements effective July 2013 Include your official college transcript with Phlebotomy grades	\$115

Course includes an additional fee for student medical malpractice insurance. Students need to confirm actual costs of quarterly tuition and fees for each quarter by using the CBC's Paying for College webpage.

For additional information or assistance related to this information, please contact the Health Science Center at (509) 544-8300.
