### 2002 – 2003 Associate of Arts & Science Degree Worksheet

<table>
<thead>
<tr>
<th>COLUMBIA BASIN COLLEGE</th>
<th>Department</th>
<th>Course #</th>
<th>Credits</th>
<th>Quarter</th>
</tr>
</thead>
</table>

#### A Communications (10 credits in English plus 3 credits in Speech)

1. ENG 101
2. ENG 201 or 205
3. Speech (options) 101, 102, 110, 111, 120, 260

#### Math Proficiency

1. Intermediate Algebra Proficiency requirement: Must do one of the following:
   - Pass Intermediate Algebra (MTH 95 or MTH 98) with 2.0 or better.
   - Pass a MTH class that has an Intermediate Algebra Prerequisite.
   - Place into any MTH course 113 or above via ASSET.

#### B Quantitative/Symbolic Reasoning (5 credits)

**Quantitative/Symbolic Reasoning Skills:**

1. Quantitative Reasoning: any Math course 122 or above except MTH 154
   (5 credits to Math/Natural Science or electives)

**OR**

2. Symbolic Reasoning: CS 102, 104, 161, 162, 202 or PHI 121

#### C Humanities (15 credits)

- Complete at least one course from any two of the following groups.
- Courses must be selected from three different subject areas.
1. ART 110, 116, 117, 118, 119, 120, 121; MUS 115, 116.
3. HIS 101, 102, 103; ICS 120, 125; PHI 101, 120, 131, 150;
   - WS 155, 160; COM 201; ENG 110.
4. FOREIGN LANG 101 & above; EFL 101, 111.

   - Excluding conversational classes. All foreign language courses count as a single subject area.

#### D Social & Behavioral Science (15 credits)

- Complete at least one course from each one of the following groups.
- Courses must be selected from three different subject areas.
1. PSY 100, 101, 201, 202, 205, 240; SOC 101, 150, 201.
2. AG 240; ANT 101, 120, 130; EC 201, 202, 291; GEO 150;
   - HIS 104, 105, 110, 112, 115; ICS 255; PS 100, 101, 103, 104.

#### E Mathematical & Natural Science (15 credits)

- At least 10 credits from biological, earth or physical science.
- Courses must be selected from two different subject areas.
- One course must be a laboratory science.

   - A single math course cannot count for both a science and a quantitative skill.

   - MTH 113, 115, 120, 121, 130, 140; PHY 100 & above.

#### F Health & Physical Education (3 credits)

Health Lecture or PE activity courses

   - (maximum 3 credits PE activity may apply towards degree requirements).

#### G Electives (24 credits)

Courses must be numbered 100 & above.

A maximum of 15 credits may be approved professional technology (PT) courses.

(See PE activity limitation in “F” above.)

---

**Note:**
- Required minimum credits 90
- Required cumulative GPA 2.0
- A minimum of 30 credits CBC courses.
- Depending on your major,
some course choices may be more appropriate than others.
- Consult with your counselor or faculty advisor.
**A** Communications (5 credits)
- ENG 101, 201

**B** Math (10 credits)
- (Two courses at or above calculus)
- MTH 231, 232, 233, 234, 254

**C** Humanities & Social/Behavioral Science (15 credits)
- Complete at least one course from each of the following groups.
- Courses must be selected from three different subjects.
- 1. ART 110, 116, 117, 118, 119, 120, 121; MUS 115, 116;
   - LIT 135, 137, 140, 150, 170, 180, 195, 205, 206, 207, 225, 226, 227, 246, 264, 265, 266, 270;
   - THA 115, 150, 215; SPE 246; HIS 101, 102, 103; ICS 120, 125;
   - PHIL 101, 120, 131, 150; WS 155, 160; COM 201; ENG 110;
   - FOREIGN LANGUAGE 101 & above, (excluding conversational classes)
   - EFL 101, 111
- All foreign language courses count as a single subject area.

- 2. PSY 100, 101, 201, 202, 205, 240; SOC 101, 150, 201; AG 240; ANT 101, 120, 130
- EC 201, 202, 291; GEO 150; HIS 104, 105, 110, 112, 115; ICS 255; PS 100, 101, 103, 104

**D** Pre Major (45-50 Credits)
- 1. CHM 111, 112, 113

- 2. MTH 143 or 233

- 3. BIO 111, 112, 113 or
  - PHY 105, 106 and 107 or
  - PHY 201, 202 and 203

- 4. Additional requirements: 10-15 quarter credits in physics, geology, organic chemistry, biology, or mathematics, consisting of courses normally taken for science majors (not for general education), preferably in a 2- or 3-quarter sequence.

**E** Program Specific Under Advisement (10-15 credits)
- Sufficient additional college-level credits so that total credits earned are at least 90 quarter credits.
- These remaining credits may include prerequisites for major courses (e.g., pre-calculus), additional major coursework, or specific general education or other university requirements, as approved by the advisor.

**Note:**
- Required minimum credits 90
- Required cumulative GPA 2.0
- A minimum of 30 credits CBC courses.
- Depending on your major, some course choices may be more appropriate than others.
- Consult with your counselor or faculty advisor.

**"The Associate of Science Degree does NOT guarantee that a student has met the general education requirements at the transfer baccalaureate institution."**
Required minimum credits 90

Required cumulative GPA 2.0

A minimum of 30 credits CBC courses.

Depending on your major, some course choices may be more appropriate than others.

Consult with your counselor or faculty advisor.

</tr>
</tbody>
</table>

** Some baccalaureate programs require physics with calculus

*** A single course cannot count in two areas.

Sequences of courses should be completed at one institution.

Select courses based on the requirements of the specific discipline at the baccalaureate institution you plan to attend.

---

The Associate of Science Degree does NOT guarantee that a student has met the general education requirements at the transfer baccalaureate institution.
AA DEGREE OPTION C

Option C - is a two-year, major specific, general education degree designed to satisfy the general educational requirements and most or all of the specific pre-program major requirements of most baccalaureate institutions. This is an approved Direct Transfer Agreement (DTA) as per the Inter-collegiate Relations Commission. The degree requires a minimum core of 66 credits, including 13 credits in Communications, 15 credits in Social Science/Behavioral Science, 15 credits in Science/Mathematics, 15 credits in Humanities, 5 credits in Quantitative/Symbolic Reasoning Skills, and 3 credits in Health/Physical Education. The degree requires 24 elective credits, with a total of 90 quarter credits and a cumulative GPA of 2.0 or above. In addition, students must earn 30 of the credits at Columbia Basin College. Substitutions of graduation requirements must be recommended by departmental faculty and the divisional dean and be approved by the Graduation/Admissions Committee.

GRADE APPEAL PROCEDURE

Students have responsibility for familiarizing themselves with Columbia Basin College’s academic policies and practices as found in the college catalog and web site and in course syllabi. Additionally, students are responsible for learning the content of a course of study according to the standards of performance established by the faculty as outlined in course syllabi. Evaluations shall represent instructors’ professional judgments of student performance.

If a student has reason to believe that a mistake was made in the computation of a course grade or otherwise believes a problem exists in a course grade that has been assigned, a student may request an appeal of the grade. The student should discuss the matter with the appropriate division dean. If the instructor is no longer employed by CBC or is otherwise unavailable during that quarter, the student should discuss the matter with the appropriate division dean.

The following procedures may be initiated no later than the end of the quarter following the one wherein the course was undertaken (excluding summer quarters):

1. The student should engage the instructor of record in an informal meeting to discuss the course grade. If the instructor is no longer employed by CBC or is otherwise unavailable during that quarter, the student should discuss the matter with the appropriate division dean.

2. The student should be able to present copies of all assessments and other relevant coursework/materials considered in the computation of the grade that were returned to the student so that an effective review of the course grade may be undertaken.

3. If an error is discovered that would change the course grade, the instructor or appropriate division dean will complete the necessary administrative process for a grade change.

### ANTHROPOLOGY

Delete ANT 110 no longer offered.

NEW!

**ANT 111 [M/S] INTRO TO PHYSICAL ANTHROPOLOGY** (5)

Physical Anthropology is the study of human beings from an evolutionary and biological perspective and ANT 111 provides an introduction to this sub-field of anthropology. In this course we will examine our own species (Homo sapiens) by looking at the biological basis of life, the processes of evolution, our primate relatives both living and extinct, and the variation seen in modern human populations. Because of the research paper requirement in this class it is strongly recommended that students complete ENG 101 before taking ANT 111.
BUSINESS ADMINISTRATION

Due to changes in math numbering, math requirements have been updated in the Technical Support Courses and General Education Requirements for the Accounting Certificate and Degree.

ONE-YEAR CERTIFICATE

BA 251 PRINCIPLES OF ACCOUNTING (5)
Fundamentals of accounting as applied to actual business situations. Introduction to the accounting cycle for service and merchandising firms controlling to purchases and sales with business papers, special journals, and subsidiary ledgers.

NEW!
BA 268 MARKETING SPECIAL PROJECTS (1-15)
A continuing practical and student centered marketing project course utilizing material provided by proposing clients, student researched data. Included in this project is the development of a marketing promotional plan for profit and not for profit companies. This special project is designed to help the student use marketing skills related to primary and secondary data collecting and added researched data, business startup planning, making a business more profitable, and decision making as they relate to the final promotion of a product or business. As in course BA 267 more advanced projects will be assigned and the above skills will be expanded.

NEW!
BA 269 MARKETING SPECIAL PROJECTS (1-15)
A continuing practical and student centered marketing project course utilizing material provided by proposing clients, student researched data. Included in this project is the development of a marketing promotional plan for profit and not for profit companies. This special project is designed to help the student use marketing skills related to effective business promotion and or product development. Selling skills and creative planning and implementation training will be utilized for the clients benefit. As in course BA 268 more technical and advanced projects and research will be assigned and the above skills will be expanded to client specificiations.

CS150 COMPUTER SECURITY .................................................... (5)
This class covers the basics of computer security. Students will learn about virus protection, installing security patches, using firewalls to protect networks, cryptography and Public Key Infrastructure (PKI), and legal issues. Prerequisites: CS 224 networking Essentials, or Instructor’s permission.

CS230 ACTIVE DIRECTORY .................................................... (5)
This course is designed to provide students with the knowledge and skills necessary to install, configure, and administer Microsoft Windows 2000 Active Directory directory services. The course also focuses on implementing Group Policy and performing the Group Policy-related tasks that are required to centrally manage users and computers. Prerequisites: CS 227 or 228. All prerequisites must be passed with a 2.0 or better before taking this class.

CS231 NETWORK INFRASTRUCTURE ADMINISTRATION ........................................ (5)
This course will prepare students to install, manage, monitor, configure, and troubleshoot DNS, DHCP, Remote Access, Network Protocols, IP Routing, and WINS in a Windows network infrastructure. In addition, this class will prepare students to manage, monitor, and troubleshoot Network Address Translation and Certificate Services. It also prepares the students to pass one of the MCSE/MCSE exams. Prerequisite: CS 227 Windows Professional, CS224 Networking Essentials or Instructor’s permission. All prerequisites must be passed with a 2.0 or better before taking this class.

CS232 WINDOWS SECURITY .................................................... (5)
This course will prepare students to design network security solutions. These solutions include analyzing business requirements, identifying security needs, and applying the security recommendations to assist in the control and monitoring of network service resources. The students will also learn how to use critical thinking and troubleshooting tools to troubleshoot security problems throughout the network. This class will also help to prepare students to pass one of the Windows Security exams. Prerequisite: CS 227 Professional, CS224 Networking Essentials or Instructor’s permission. All prerequisites must be passed with a 2.0 or better before taking this class.

CS243 WEB ANIMATION .................................................... (5)
This class covers the basics of 2D Animation for use on the Web. Students will learn Flash, a timeline-based 2D animation application. The class will introduce both motion graphic techniques and abstract animation techniques. Prerequisites: CS 203 Advanced Graphics, or Instructor’s permission.

CS261 VISUAL C++ ......................................................... (5)
A course in MFC Programming with C++ and Visual C++ will help students learn to program using C++ Standard Template Libraries with MFC. Students also learn to use windows object-oriented development techniques for large applications. This course is intended for students who are already familiar with C++ language. All prerequisites must be passed with a 2.0 or better before taking this class. Prerequisite: CS 162.

IT200 IMPLEMENTING WINDOWS PROFESSIONAL ........................................ (4)
This course provides students with the knowledge and skills necessary to install, configure, and administer Microsoft Windows® 2000 Active Directory™ directory services. The course also focuses on implementing Group Policy and performing the Group Policy-related tasks that are required to centrally manage users and computers. Prerequisite: IT 200 or Instructor’s approval.

IT201 IMPLEMENTING A WINDOWS NETWORK INFRASTRUCTURE ........................................ (4)
This course is for support professionals who are new to Microsoft Windows® and will be responsible for installing, configuring, and supporting a network infrastructure that uses the Microsoft Windows Server products. Prerequisite: IT 200 or Instructor’s approval.

IT202 IMPLEMENTING WINDOWS DIRECTORY SERVICES ........................................ (4)
This course is designed to provide students with the knowledge and skills necessary to install, configure, and administer Microsoft Windows® 2000 Active Directory™ directory services. The course also focuses on implementing Group Policy and performing the Group Policy-related tasks that are required to centrally manage users and computers. Prerequisite: IT 200 or Instructor’s approval.

IT203 DESIGNING A SECURE WINDOWS NETWORK ........................................ (4)
This course provides students with the knowledge and skills necessary to design a security framework for small, medium, and enterprise networks by using Microsoft Windows technologies. Prerequisites: IT 200, IT 201 and IT 202 or Instructor’s approval.

IT205 ADMINISTERING A MICROSOFT SQL SERVER ........................................ (4)
This course provides students with the knowledge and skills required to install, configure, administer, and troubleshoot the client-server database management system of Microsoft SQL Server™. Prerequisite: IT 200 or Instructor’s approval.

CRIMINAL JUSTICE
A.A.S. DEGREE CURRICULUM
Technical Core: (37 credits)

Total Credits 134

DHYG 110 DENTAL ANATOMY (3)

Study of the head and neck regions, including dental anatomy. Builds on basic sciences, prepares for the study of the dental sciences, and relates this information to the clinical practice of dental hygiene. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 112 ORAL RADIOLOGY I (1)

First in a series on oral radiology, focuses on radiation physics, biology, protection, recognition of anatomical landmarks, and evidence of pathologies. Includes laboratory practice of basic radiology skills; all skills taught to laboratory competence. Builds on basic sciences, prepares for the study of the dental sciences, and relates this information to the clinical practice of dental hygiene. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program and Oral Radiology Lab.

DHYG 112.1 ORAL RADIOLOGY I LAB (1)

First in a series on oral radiology, focuses on radiation physics, biology, protection, recognition of anatomical landmarks, and evidence of pathologies. Includes laboratory practice of basic radiology skills; all skills taught to laboratory competence. Builds on basic sciences, prepares for the study of the dental sciences, and relates this information to the clinical practice of dental hygiene. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program and Oral Radiology Lab.

DHYG 113 CLINICAL DENTAL HYGIENE TECHNIQUES I (1)

Introduces basic principles and skills used in the practice of dental hygiene, including infection control, patient assessment, and treatment. This course will provide opportunity to gain the knowledge and skills required to perform: exposure and infection control procedures, patient preparation, patient health and risk assessments, intraoral and extraoral examinations, and beginning instrumentation skills. Builds on basic and dental sciences and prepares for clinical dental hygiene practice on community clients. Prerequisite: Enrollment in Columbia Basin College Dental Hygiene Program and concurrent enrollment in DHYG 113.1 Clinical Dental Hygiene Techniques Lab.

DHYG 113.1 CLINICAL DENTAL HYGIENE TECHNIQUES LAB (3)

Introduces basic principles and skills used in the practice of dental hygiene, including infection control, patient assessment, and treatment. This course will provide opportunity to gain the knowledge and skills required to perform: exposure and infection control procedures, patient preparation, patient health and risk assessments, intraoral and extraoral examinations, and beginning instrumentation skills. Builds on basic and dental sciences and prepares for clinical dental hygiene practice on community clients. Prerequisite: Enrollment in Columbia Basin College Dental Hygiene Program and concurrent enrollment in DHYG 113 Clinical Dental Hygiene Techniques.

DHYG 114 DENTAL HEALTH EDUCATION (1)

This course covers the principles and practices of prevention and control of dental disease with emphasis on plaque control, motivation, and patient oral hygiene education. Builds on basic sciences, prepares for the study of the dental sciences, and relates this information to the clinical practice of dental hygiene. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 115 DENTAL MATERIALS (1)

First in a series of courses dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. An introduction to restorative dentistry procedures. Presents the history, composition, chemical and physical properties and use of materials commonly utilized in the dental laboratory and dental operator. Builds on dental sciences. Provides laboratory experience in performing common dental laboratory procedures and prepares for the clinical practice of extended functions, including four-handed dentistry techniques; all skills are taught to laboratory competence. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 115.1 Dental Materials Lab.
DHYG 115.1 DENTAL MATERIALS LAB (1)
First in a series of laboratory courses dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. Presents the composition, chemical and physical properties and use of materials commonly utilized in the dental laboratory and dental operatory. Builds on dental sciences. Provides laboratory experience in performing common dental laboratory procedures and prepares for the clinical practice of expanded functions, including amalgam manipulation techniques; all skills are taught to laboratory competence. Prerequisites: Successful completion of the second quarter of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 115.1 Dental Materials Lab.

DHYG 116 HEAD AND NECK ANATOMY (2)
Study of the clinical recognition of normal oral structures, embryology, and histology of orofacial structures. Builds on basic sciences, prepares for the study of additional dental sciences, and how these structures relate to the clinical practice of dental hygiene. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 121 GENERAL PATHOLOGY (1)
This course focuses on the study of commonly encountered systemic diseases: the etiology, presentation, treatment and effect on dental treatment, including associated emergency procedures. Emphasizes the principles of inflammation, immunology, healing, and repair. Builds on basic sciences and dental sciences, and prepares for the clinical practice of dental hygiene. Prerequisite: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Concurrent enrollment in Dental Emergencies Lab DHYG 121.1.

DHYG 121.1 DENTAL EMERGENCIES LABORATORY (1)
This course focuses on the study of commonly encountered systemic diseases: the etiology, presentation, treatment and effect on dental treatment, including associated emergency procedures. Emphasizes the principles of inflammation, immunology, healing, and repair. Builds on basic sciences and dental sciences, and prepares for the clinical practice of dental hygiene. Prerequisite: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Concurrent enrollment in Dental Emergencies Lab DHYG 121.

DHYG 122 ORAL RADIOLOGY II (1)
Second in a series on oral radiology. Focuses on radiographic quality, dental techniques, film processing, mounting, and interpretation of errors. Practices skills on dental manikins and student patients in a preclinical setting; most skills are taught to laboratory competence. Builds on the basic sciences and dental sciences, and prepares for the clinical practice of dental hygiene. Prerequisite: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 121.1.

DHYG 122.1 ORAL RADIOLOGY II LAB (1)
This course is the second in a series on oral radiology. It focuses on radiographic quality, dental techniques, film processing, mounting, and interpretation of errors. Practices skills on dental manikins and student patients in a preclinical setting; most skills are taught to laboratory competence. Builds on the basic sciences and dental sciences, and prepares for the clinical practice of dental hygiene. Prerequisite: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 121.

DHYG 123 CLINICAL DENTAL HYGIENE TECHNIQUES II (1)
Second in a series of Clinical Dental Hygiene Techniques. Focuses on dental hygiene treatment planning, effective communication, and preventative client education. All skills are taught to clinical competence. Builds on basic and dental sciences and prepares for clinical dental hygiene techniques lab. Prerequisites: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 123.1. Current enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 123.1 CLINICAL DENTAL HYGIENE TECHNIQUES II LAB (4)
Second in series on clinical practice of dental hygiene. Basic skills of dental hygiene practice, including patient assessment, instrumentation, and treatment are practiced on student partners and clients in a clinical setting; all skills are taught to clinical competence. Expands on the procedures and techniques introduced in preclinical course. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. Prerequisite: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program and current enrollment in DHYG 123.

DHYG 125 RESTORATIVE DENTISTRY I (1)
First in a series of courses dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. Presents the composition, chemical and physical properties and use of materials commonly utilized in the dental laboratory and dental operatory. Builds on dental sciences. Provides laboratory experience in performing common dental laboratory procedures and prepares for the clinical practice of expanded functions, including amalgam manipulation techniques; all skills are taught to laboratory competence. Prerequisites: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 125.

DHYG 125.1 RESTORATIVE DENTISTRY I LAB (1)
First in a series of laboratory courses dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. Presents the composition, chemical and physical properties and use of materials commonly utilized in the dental laboratory and dental operatory. Builds on dental sciences. Provides laboratory experience in performing common dental laboratory procedures and prepares for the clinical practice of expanded functions, including amalgam manipulation techniques; all skills are taught to laboratory competence. Prerequisites: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 125.

DHYG 126 PAIN CONTROL IN DENTISTRY (1)
Covers the pharmacology and physiology of local anesthetic agents and nitrous oxide. Focuses on the anatomy of the nerves, physiology of nerve conduction, and how anesthesia works. Includes effective techniques in the delivery of these agents to the oral cavity as part of the expanded functions for dental hygienists in the state of Washington. Discusses the prevention and management of associated emergencies. Skills are practiced in a clinical setting on student patients; all skills are taught to clinical competence. Builds on the basic sciences and dental sciences, and prepares for the clinical practice of dental hygiene. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 126.1 PAIN CONTROL IN DENTISTRY LAB (1)
Covers the pharmacology and physiology of local anesthetic agents and nitrous oxide. Focuses on the anatomy of the nerves, physiology of nerve conduction, and how anesthesia works. Includes effective techniques in the delivery of these agents to the oral cavity as part of the expanded functions for dental hygienists in the state of Washington. Discusses the prevention and management of associated emergencies. Skills are practiced in a clinical setting on student patients; all skills are taught to clinical competence. Builds on the basic sciences and dental sciences, and prepares for the clinical practice of dental hygiene. Prerequisites: Successful completion of the first quarter of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 126.

DHYG 132 PERIODONTICS I (3)

DHYG 134 CLINICAL DENTAL HYGIENE TECHNIQUES III (1)

DHYG 134.1 CLINICAL DENTAL HYGIENE TECHNIQUES III LAB (4)
Third in series on clinical practice of dental hygiene. Basic skills of dental hygiene practice, including client assessment, instrumentation, and treatment are practiced on clients in a clinical setting; all skills are taught to clinical competence. Expands on the procedures and techniques introduced in previous clinical courses. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. Prerequisites: Successful completion of the first and second quarters of the first year of the Columbia Basin College Dental Hygiene Program. Current enrollment in DHYG 134.

DHYG 135 RESTORATIVE DENTISTRY II (1)
Second in a series of courses dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. Preclinical laboratory exercises in the expanded function of the placement and finishing of amalgam and composite restorations on prepared model teeth; all skills taught in a preclinical setting. Builds on dental sciences and previous laboratory courses in dental materials. Prerequisite: Current enrollment in Columbia Basin College Dental Hygiene Program.
DHYG 135.1 RESTORATIVE DENTISTRY II LAB (1)
Second in a series of courses dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. Preclinical laboratory exercises in the expanded function of the placement and finishing of amalgam and composite restorations on prepared model teeth; all skills taught to laboratory competence. Builds on dental sciences and previous laboratory courses in dental materials. Prerequisite: Current enrollment in Columbia Basin College Dental Hygiene Program.

DHYG 136 PATIENT MANAGEMENT (1)
This course focuses on the characteristics of individual patients, motivation, management and interpersonal communication. Treatment modification for the medically or mentally compromised patient, young and geriatric patient in addition to a variety of transitional special needs patients is presented. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. Prerequisite: Current enrollment in the sequential curriculum of the Columbia Basin College Dental Hygiene Program.

DHYG 144 CLINICAL DENTAL HYGIENE TECHNIQUES IV (1)
Fourth in a series of Clinical Dental Hygiene Technique courses. Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, elderly, and seminar study of clinical cases. Prerequisite: Current enrollment in of the Columbia Basin College Dental Hygiene Program.

DHYG 144.1 CLINICAL DENTAL HYGIENE TECHNIQUES IV LAB (5)
Fourth in a series of Clinical Dental Hygiene Technique courses. Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, elderly, and seminar study of clinical cases. Prerequisite: Current enrollment in of the Columbia Basin College Dental Hygiene Program.

DHYG 146 RESTORATIVE DENTISTRY IV (1)
Third course dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. Allows for case presentations and laboratory exercises all skills taught to laboratory competence. Builds on dental sciences and previous laboratory courses in dental materials. Prerequisite: Enrollment Columbia Basin College Dental Hygiene Program.

DHYG 146.1 RESTORATIVE DENTISTRY IV LAB (3)
Third course dealing with restorative dentistry skills as practiced by a dental hygienist in the state of Washington. Allows for case presentations and laboratory exercises all skills taught to laboratory competence. Builds on dental sciences and previous laboratory courses in dental materials. Prerequisite: Enrollment Columbia Basin College Dental Hygiene Program and DHYG 146.

DHYG 212 ADVANCED CLINICAL TOPICS (1)
Specific advanced skills in clinical dental hygiene for periodontally involved and implant patients are discussed and demonstrated; all skills are taught to laboratory competence. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. This course is offered on a Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 212.1 ADVANCED CLINICAL TOPICS (1)
Specific advanced skills in clinical dental hygiene for periodontally involved and implant patients are discussed and demonstrated; all skills are taught to laboratory competence. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 214 CLINICAL DENTAL HYGIENE TECHNIQUES V (1)
Fifth in a series of Clinical Dental Hygiene Technique courses. Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, elderly, and seminar study of clinical cases. Prerequisite: Current enrollment in of the Columbia Basin College Dental Hygiene Program.

DHYG 214.1 CLINICAL DENTAL HYGIENE TECHNIQUES V LAB (6)
Fifth in a series of Clinical Dental Hygiene Technique courses. Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, elderly, and seminar study of clinical cases. Prerequisite: Current enrollment in of the Columbia Basin College Dental Hygiene Program.

DHYG 221 COMMUNITY ORAL HEALTH I (3)
Examines the principles of community health, including assessment, planning, implementation, and evaluation of healthcare, with an emphasis on oral health. Builds on knowledge of ethics, basic and dental sciences, and clinical dental hygiene practice. Provides the knowledge and skills necessary to function in a community health setting. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 221.1 COMMUNITY ORAL HEALTH I LAB (2)
Supervised clinical practice of dental hygiene in a community health setting. This course is offered on a Credit/No Credit basis only. Prerequisite: Successful completion of the second quarter of the second year of the Columbia Basin College Dental Hygiene Program.

DHYG 222 PERIODONTICS II (3)
Second in a series on periodontology. Provides background knowledge of the treatment of periodontal disease, including concepts concerning treatment planning and case presentation. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. Prerequisite: Successful completion of all of first quarter of the second year of the Columbia Basin College Dental Hygiene Program.

DHYG 224.1 CLINICAL DENTAL HYGIENE TECHNIQUES VI LAB (6)
Fifth in a series of Clinical Dental Hygiene Technique courses. Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, elderly, and seminar study of clinical cases. Prerequisite: Current enrollment in of the Columbia Basin College Dental Hygiene Program.

DHYG 227.1 NITROUS OXIDE ADMINISTRATION LAB (1)
Covers the pharmacology and physiology of local anesthetic agents and nitrous oxide. Focuses on the anatomy of the nerves, physiology of nerve conduction, and how anesthesia works. Includes effective techniques in the delivery of these agents to the oral cavity as part of the expanded functions for dental hygienists in the state of Washington. Discusses the prevention and management of associated emergencies. Skills are practiced in a clinical setting on student patients; all skills are taught to clinical competence. Builds on the basic sciences and dental sciences, and prepares for the clinical practice of dental hygiene. Prerequisite: Enrollment in the Columbia Basin College Dental Hygiene Program.

DHYG 234 CLINICAL DENTAL HYGIENE TECHNIQUES VII (1)
Seventh in a series of Clinical Dental Hygiene Technique courses. Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, elderly, and study of clinical cases. Prerequisite: Current enrollment in of the Columbia Basin College Dental Hygiene Program.

DHYG 234.1 CLINICAL DENTAL HYGIENE TECHNIQUES VII LAB (7)
Seventh in a series of Clinical Dental Hygiene Technique courses. Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, elderly, and seminar study of clinical cases. Prerequisite: Current enrollment in of the Columbia Basin College Dental Hygiene Program.
A.A.S. DEGREE CURRICULUM

Technical Core:

- PSY 201 .......... Social Psych .....................................................................5
- SPE 260 .......... Multicultural Communications .........................................5
- SPE 120 .......... Speech Multi-Media...........................................................5
- SPE 110 .......... Communication Behavior................................................3
- SPE 102 .......... Speech Essentials ............................................................5
- EN 224 .......... Structures .......................................................................5
- EN 226 .......... Architecture/Structural Drafting .........................................5
- EN 229 .......... Construction Specifications .................................................2

Select 2 of the following:

- EN 271 .......... Drawing Production ............................................................3
- EN 272 .......... Advanced 3-D ................................................................3
- EN 273 .......... Advanced CAD .................................................................5
- EN 299 .......... Special Problems ................................................................3

Technical Support:

- MTH 95 .......... Intermediate Algebra ..........................................................5
- MTH 113 .......... Geometry/Trigonometry ....................................................5
- ENG 101 .......... English ...........................................................................5

Total Credits: 116-120

ENGLISH AS A FOREIGN LANGUAGE (EFL)

This is a new program.

- EFL 096 .......... English Read/Write I ..........................................................5
- EFL 097 .......... English Read/Write II ..........................................................5

ENVIRONMENTAL SCIENCE

ENVS 100.0 ENVIRONMENTAL SCIENCE ..................................................4

A multidisciplinary course designed to provide both the non-science and science major the background necessary to understand environmental problems that have arisen due to human activities. Topics include: food chains; energy production; nutrient cycles; forest and wildlife management; population demographics; air and water pollution; ozone depletion and global warming. Lab and lecture must be taken concurrently.

ENVIRONMENTAL SCIENCE LAB

FIRE SCIENCE

DAY PROGRAM CURRICULUM

Technical Core:

- FCA 105 .......... Hydraulics ..................................................................3
- FCA 120 .......... Fire Investigation .............................................................3
- FCA 137 .......... Fire Protection Systems .....................................................3

Subtotal 20
Total Fire Science Evening Program 90

GENERAL ENGINEERING

GE 281 STATICS
Analysis of force systems in static equilibrium. Topics include force vectors, equilibrium of particles and rigid bodies, structural analysis, distributed forces, friction, center of gravity, moments of inertia. Prerequisites: PHY 201/201.1 and MTH 231.

HISTORY

NEW!
HIS 115 [S/B]HISTORY OF THE MODERN MIDDLE EAST (5)
An introduction to the history of the modern Middle East. Topics covered include: an introduction to Islam as a polity; Arab Muslim societies, past and present; Islamic law; the Ottoman Empire and societies; and age of nation-states and the end of the Empire; economics of the region.

INTERCULTURAL STUDIES

NEW!
ICS 100 INTERCULTURAL STUDIES 100 (3)
An introduction to the history, culture, geography, art, and language of a Spanish-speaking country, followed by a trip to the country studied for a first-hand experience.

LITERATURE

LIT 180 MULTICULTURAL LITERATURE (5)
Credit changed from 3 to 5
Introduction to the multicultural literatures of the United States (i.e., African-American Literature, Native American Literature, Hispanic-American Literature, Asian American Literature). Completion of or concurrent enrollment in English 101 is required.

MATHEMATICS

NEW NUMBER COURSE DESCRIPTION PREREQUISITE
91.91 Beginning Algebra Math 84^ 95.95 Intermediate Algebra Math 91*^ 96.96 Algebra Review I Math 84^ 97.97 Algebra Review II Math 96* & 98.98 Algebra Review III Math 97* 
NOTE: MATH 96.97.98 IS A 3 QUARTER SEQUENCE THAT COVERS MATH 91 & 95 MATERIAL

* REQUIRES A 2.0 OR BETTER GRADE IN PREREQUISITE & ASSET PLACEMENT
& GRADE OF 1.5 OR BETTER IN MATH 91 AND INSTRUCTOR'S PERMISSION

MTH 155 PRECALCULUS II
Precalculus II is the second quarter of the precalculus sequence. Precalculus II is predominantly trigonometry. The topics include trigonometric functions and their inverses, solving triangles, circular functions, identities, conditional equations, complex numbers in polar form, parametric and polar equations, systems of equations, matrices and determinants, and vectors. Prerequisite: grade of 2.0 or better in MTH 154.

MTH 233 CALC/ANALYTIC GEOM III
A continuation of MTH 232. Topics include: infinite sequences and series, conics, parametric equations, polar coordinates, arc length, vectors in two and three dimensions, surfaces, cylindrical coordinates, and spherical coordinates. Prerequisite: grade of 2.0 or better in MTH 232 or equivalent.

MTH 234 MULTI-VARIABLE CALCULUS
An introduction to the calculus applied to functions of two or three variables. Topics include: three-dimensional space curves, vector-valued functions, curvature, motion of a particle in space, partial derivatives, differentials, directional derivatives, multiple integration, vector fields, line integrals, Green’s Theorem, surface integrals, the Divergence Theorem and Stoke’s Theorem. Prerequisite: grade of 2.0 or better in MTH 233 or equivalent.

MTH 210 BASIC CALCULUS
Designed for non-physical science majors such as business, management, behavioral science and social science. Topics include: relations, functions, exponential and logarithmic functions, derivatives and their applications, integrals and their applications, and functions of several variables. Prerequisite: grade of 2.0 or better in MTH 154 or ASSET test placement.
MTH 121 STRUCTURE OF ELEM MATH
An elementary introduction to set theory, numeration systems, properties of the real number system and its sub-systems, problem solving techniques, logic and applications of mathematics. Primarily for elementary education majors. This course satisfies the quantitative skills requirement for the AA degree provided that MTH 122 is also successfully completed. Prerequisite: grade of 2.0 or better in MTH 121.

MTH 122 INFORMAL GEOM FOR ELEMEN
An informal approach to the basic ideas of geometry, including congruence and similarity, transformations, symmetry, measurement, and coordinate geometry. This course satisfies the quantitative skills requirement for the A.A. degree, provided that MTH 121 has also been successfully completed. Prerequisite: grade of 2.0 or better in MTH 231.

MTH 243 LINEAR ALGEBRA
Designed for the physical science majors in fields such as mathematics, engineering and physics. Topics include vectors, matrices and determinants, lines and planes in 3-space, linear systems, vector spaces, linear transformations, eigenvalues and eigenvectors. Prerequisite: grade of 2.0 or better in MTH 231.

MTH 246 DISCRETE STRUCTURES
This course is an introduction to discrete mathematics, trees, graphs, elementary logic, and combinatorics with applications to computer science. Prerequisite: MTH 121. A knowledge of computers and programming would be beneficial but is not required.

MTH 254 DIFFERENTIAL EQUATIONS
An introduction to techniques used in solving linear differential equations. Numerical methods will be introduced to solve linear and non-linear differential equations. Prerequisite: grade of 2.0 or better in MTH 231.

PARALEGAL
Due to changes in math numbering, math requirements have been updated in the General Education Requirements for the Paralegal Degree.

EVENING PROGRAM ONLY
PARALEGAL A.A.S. DEGREE CURRICULUM

Technical Core:
- PL 101 Intro to Paralegalism .................................................. 5
- PL 102 Legal Procedures ....................................................... 3
- PL 105 Law Office Management ........................................... 3
- PL 107 Interview/Investigation .............................................. 3
- PL 121 Contract Law .............................................................. 9
- PL 122 Contract Law .............................................................. 9
- PL 131 Torts .............................................................................. 9
- PL 132 Torts .............................................................................. 9
- PL 146 Paralegal Ethics ......................................................... 3
- PL 147 Computers in A Law Envir ........................................ 1
- PL 147.1 Computers in A Law Envir Lab ................................ 1
- PL 150 Intro to Legal Writing ............................................... 3
- PL 151 Legal Research & Writing .......................................... 5
- PL 152 Advanced Legal Writing ........................................... 5

Technical Core Electives:
A minimum of 27 credits of additional paralegal courses.

General Education:
- ENG 101 English Composition ............................................... 5
- MTH Math 106 or above ......................................................... 5
- PSY 101
  or SOC 101
  or PSY 201 ................................................................. 5
- SPE 101
  or SPE 110
  or SPE 120 ........................................................................ 3
  *To be approved by department

Electives: (choose 4 credits)
- CA 100 Intro to Microcomputers .......................................... 4
- CS 106 Database Systems 1 .................................................. 5
- BT 101 Keyboarding I ......................................................... 2
- BT 102 Keyboarding II ....................................................... 2
- BT 129 Keyboarding/Skillbuild .......................................... 2
- BT 173
  or BT 174
  or BT 175 Word Processing ............................................ 4

PL 147 COMPUTERS IN A LAW ENVIRONMENT (1)
A course that will assist the student to use standard and specialized computer software to complete legal documents, conduct research, and coordinate paralegal activities. Must be taken concurrently with PL 147.1. Prerequisite: CA 100 or Instructor's permission.

PL 147.1 COMPUTERS IN A LAW ENVIRONMENT LAB (1)
A lab that provides an opportunity to have hands on interaction with standard and specialized computer software to complete legal documents, conduct research, and coordinate paralegal activities. This lab is taken with PL 147.0 course.

PHYSICS

PHY 105 GENERAL PHYSICS I (4)
This course is designed for those students that are not majoring in a four-year engineering or physical science degree. Topics include measurement and units, vectors, momentum and collisions, circular motion, gravity, rotational motion. Prerequisite: MTH 113 or equivalent with a 2.0 or higher.

PHY 201 ENGINEERING PHYSICS I (4)
Physics for engineering or physical science majors. Mechanics. Prerequisite: MTH 231, or equivalent, with a G.P.A. of 2.0 or better.

PHY 202 ENGINEERING PHYSICS II (4)
Mechanics, thermodynamics and electromagnetism. Prerequisite: MTH 232 and PHY 201/201.1.

PSYCHOLOGY

PSY 230 HUMAN SEXUALITY (5)
A survey of human sexuality from a biological, psychological, and sociocultural perspectives. Topics include sexual orientation, paraphilias and sexually transmitted diseases.
