ADDENDUM

Columbia Basin College
2009-11

General Information

Transfer Evaluation Policy and Procedure

(NEW TITLE - - replaces "Transfer Policy") (page 13)

Columbia Basin College subscribes to the statewide policy on Inter-Collegiate Transfer and Articulation, as endorsed by the public and private colleges and universities of Washington and the State Board for Community and Technical Colleges and adopted by the Higher Education Coordinating Board. The policy addresses the rights and responsibilities of students and the process for review and appeal in transfer credit disputes.

- All credits are subject to approval by the Transcript Department based on credit equivalency, applicability to the degree or certificate, and the transfer institution's accreditation. The college reserves the right to accept or reject credits earned at other institutions.
- In general, it is college policy to accept credits transferred from regionally accredited institutions, provided the credit is essentially equivalent in academic level and nature to courses offered at Columbia Basin College. Credits earned at institutions during their candidacy for accreditation by a regional accrediting association are accepted if accreditation was granted three years subsequent to the candidacy. Credits earned while an institution was not in candidacy or accredited will not be accepted.
- Prior to evaluating transfer credits, students must submit a completed Application for Admission and pay the Admissions Application Fee. The evaluation will be completed when all official transcripts have been received by the Transcript Department. A transcript is official if it is sent directly from the sending institution to CBC. Official transcripts can be sent via electronic transmission directly to CBC from any community college in the State of Washington. A transcript may be hand delivered to CBC only if it is sealed in an official envelope from the sending institution. Transcripts are evaluated based on the order in which they are received and are usually completed within eight weeks of receiving all official transcripts.
- When the evaluation has been completed, students will be mailed a Worksheet for Evaluation of Transfer Credit showing a course-by-course equivalency and the total number of credits accepted. The evaluation is specific to the student's program of study. A lower-division degree-applicable course (usually numbered 100-200) is generally accepted. An upper-division course (usually numbered 300-400) is not accepted unless equivalent in content, credits and prerequisite to a CBC 100-200 level course.
- A maximum of two-thirds of the total applicable credits required for any CBC degree or certificate may be met with credits transferred from other institutions.
- Credits and grades transferred to CBC from other colleges and universities are included in the calculation of the overall degree GPA. Transfer courses accepted by the Evaluations Office are recorded in the Student Management System but CBC's official transcript will show only the name of the transfer institution, credits earned and GPA. Students must earn a minimum combined cumulative grade point average of 2.0 or above in all college-level courses taken at Columbia Basin College and transferred from other institutions to graduate.
- Currently enrolled students are assigned registration times based on cumulative credit hours earned at Columbia Basin College or a maximum of 60 quarter transfer credits officially evaluated by the Transcript Department.
- International transcripts must be translated and evaluated by a current member of NACES®. Students may contact the Evaluations Office for a list of recognized international transcript evaluation agencies.
- If students wish clarification on an evaluation determination, they are encouraged to contact the Transcript Department. It is recommended that students make an individual appointment with a CBC advisor to review how transfer credits will apply to a CBC degree or certificate. An unofficial transcript can be used for advising purposes until an official evaluation is completed. For more detailed information on the transfer evaluation process, contact the Transcript Department.

Registration (page 16)

Registration precedes the beginning of each quarter. Students are not allowed to attend a class unless they are officially registered for those classes. The registration process includes selection of classes, enrollment, and payment of tuition and fees. You will find detailed instructions and procedures in the quarterly class schedule.

Registration Procedures

(NEW SECTION)

After completing the admissions process, registration times are assigned on a first-come, first-served basis. Early application for admission is strongly encouraged. Currently enrolled students are assigned registration times based on cumulative credit hours earned at Columbia Basin College and/or a maximum of 60 quarter transfer credits officially evaluated by the Transcript Department. Any degree-seeking student or any student wishing to register for a math or English course or a course with a math or English prerequisite must complete a COMPASS assessment. Contact the Assessment Center to schedule an appointment. Transfer students who have completed math and/or English from an accredited college will not be required to complete ASSET/COMPASS, provided an official college transcript is submitted that documents the attainment of the necessary prerequisites.

Academic Policies

Course Repeat Policy

(REPLACE) (page 19)

Courses at CBC may be repeated to improve the grade earned. A grade identifier of "R" will be posted next to the lowest graded course on the permanent transcript and the grade point average will exclude any course that has a repeat grade identifier. Credit is given only once and the highest grade earned is used to compute the GPA. Repeated courses must be equivalent in credit and content and all courses and earned grades will remain on the academic transcript. Students receiving financial aid or veterans benefits should consult the respective office prior to repeating a course as financial penalties may be imposed. Other colleges and universities may include repeated course grades in their eligibility for admissions and/or graduation. Courses repeated more than three times are subject to all instructional costs that are equivalent to nonresident tuition.

To request a course repeat, students must complete and submit to the Admissions and Registration Office the Repeated Course Request form found online at http://www.columbiabasin.edu/docs/repeated_class_request_form.pdf

A student who takes a course at Columbia Basin College and subsequently repeats the course at another fully accredited college or university shall be granted a repeat, upon request, for that course with the following conditions:

- The student must be enrolled at Columbia Basin College
- The course must be evaluated by CBC and verified as substantially equivalent in credit and content
- All courses and earned grades will remain on the transcript. A repeat identifier will appear on the CBC transcript and the original grade will be removed from the GPA
- A notation will be entered on the CBC transcript indicating the course was repeated via transfer

Exceptions to the Course Repeat Policy must be submitted for consideration to the Admissions/Graduation Committee. Contact the Registrar's Office for further information.

Course Challenge Policy and Procedure

(REPLACE) (page 21)

Certain courses at Columbia Basin College may be challenged for credit through the process of a departmental challenge examination. Individual departments will determine which, if any, of their courses may be challenged. Contact Admissions and Registration to obtain an application and procedure instructions for credit by examination. The general guidelines for a course challenge are:

- The student must be enrolled at Columbia Basin College during the term the course is challenged.
- If the student is enrolled in the course, it must be challenged within the first week of the course. If the challenge is successful, it is the student's responsibility to drop the course on or before the 100% refund deadline.
- The course being challenged must be offered during the term in which it is being challenged unless otherwise specified by the department policy.
- The student has never received college credit(s) for the course or for one similar to the course being challenged.
- A course may only be challenged once.
- An examination fee per credit (non-refundable) must be paid prior to the examination (contact cashier).
- Only full-time Columbia Basin College instructors or adjunct instructors with permission of department lead or division dean can administer challenge examinations: in the Math/Science division, lab courses cannot be challenged.
- Challenge examinations can be given any time before grades are due at the end of the quarter, except as noted.
- Credit(s) and grade earned will be recorded on the transcript

Standards of Academic Progress and Performance

(REPLACE) (page 20)

A student's enrollment at Columbia Basin College is a partnership among the student, the College, and the State of Washington. Columbia Basin College has a responsibility to each student, but also to the state that helps fund each student's college education, to develop standards of academic progress and performance. The College utilizes various resources and support programs to assist students toward successful academic performance and program completion:

- The College provides detailed information about degree and certificate requirements and the College's Standards of Academic Progress and Performance at mandatory advising, registration, and orientation programs for new degree and certificate seeking students.
- The College monitors student progress and academic performance throughout enrollment and intervenes when expectations are not being met.

Columbia Basin College does not intend to discourage or penalize students who are sincerely trying to make good use of the College's resources. Nevertheless, there may be instances when the College may determine that a student is not benefiting from continued enrollment. In such cases, the College may take steps to do either of the following:

- Limit or deny future enrollment to that student
- Allow continued enrollment but limit state funding support

Academic Progress Policy

In order to assist students in the timely completion of degrees and certificates, Columbia Basin College monitors student progress at pivotal stages of his/her enrollment.

As they begin their studies at CBC, students are provided detailed information about degree and certificate requirements. During the mandatory transition workshop (FYI: First Year Introduction) for all new degree- and certificate-seeking students, students develop an educational plan that maps out a strategy to meet degree or certificate requirements. At various times, counselors, advisors, or educational planners may advise students to adjust their educational plans as necessary in order to complete their degrees or certificates within a reasonable time.

In the unusual case where a student has earned more than 125 percent of the credits required for degree or certificate completion and has not yet completed a graduation application, CBC may require advisor or counselor approval in selecting courses to ensure relevance to his/her educational program plan.

Academic Performance Policy

Columbia Basin College's Academic Performance Policy includes both grade performance and credit completion components. Students in a degree or certificate program must maintain a minimum cumulative, college-level grade point average (CLVL) of 2.0. Additionally, excessive withdrawals from classes are problematic as they delay students' completion and decrease the College's ability to efficiently manage class enrollment.

Early Warning Signs of Academic Difficulty

Students are strongly encouraged to seek advice from a counselor, advisor, or educational planner as well as use College resources when they first begin to show signs of academic difficulty. These signs include, but are not limited to:

- Failing FYI
- Class instructor concerns about their academic performance
- Students' own acknowledgement they are not understanding class material or doing well in their coursework
- Quarterly GPA < 2.0

Academic Sanctions

Students who have a **cumulative**, college-level GPA (CLVL) below 2.0 will be placed on academic probation that could progress to academic dismissal if subsequent academic performance does not improve. CBC may block students' ability to register for future classes until they have met specific intervention requirements. When students improve their CLVL to 2.0 or higher, they will be removed from unsatisfactory performance status. However, the College reserves the right to continue to monitor student progress and performance as it deems appropriate. (Please refer to "Academic Monitoring.")

Probation - This sanction applies to the first quarter a student receives a **cumulative**, college-level GPA (CLVL) below 2.0. A block will be placed on the student's ability to register until the student has successfully completed the online **Distress to Success** workshop. For further information, contact the Counseling and Advising Center.

Subject to Dismissal - This sanction applies to the second consecutive quarter a student receives a **cumulative**, college-level GPA below 2.0. The student will receive a warning letter that the next academic sanction is academic dismissal. The student is very strongly encouraged to meet with a counselor so that s/he can begin to address whatever issues or barriers may be impeding his/her academic success.

Academic Dismissal - CBC will academically dismiss the student after the third consecutive quarter the student receives a **cumulative**, college-level GPA (CLVL) below 2.0. The normal duration for dismissal is four consecutive quarters, including summer quarter. During Academic Dismissal, the student may not register for any classes and may not participate in any events or activities reserved for students.

- If a student wishes to return earlier than the four quarter sanction, s/he may do so by successfully completing CBC's **Academic CPR** workshop. Workshops are offered each quarter. After successful completion of the workshop, a student may return to CBC the subsequent quarter. Contact the Counseling and Advising Center for further information.

- If a student chooses not to complete the **Academic CPR** workshop, s/he will be required to sit out for four consecutive quarters before s/he can request to return to CBC by submitting a "Petition for Reinstatement after Academic Dismissal" form to the Vice President for Student Services no later than 90 calendar days prior to the quarter in which s/he wishes. The student will be scheduled to meet with a Reinstatement Committee who will decide if the student will be allowed to be re-admitted to CBC. Contact the Vice President for Student Services for further information.

Conditional Enrollment

Students reinstated after successfully completing the **Academic CPR** workshop or through the Reinstatement Committee will be placed on conditional enrollment status. They must maintain a minimum 2.0 college-level **quarterly** GPA. Those who do not fulfill the performance standards while on conditional enrollment status may continue to attend CBC, but will be assessed a financial penalty due to continued unsatisfactory performance. At this point no further state funds will be used to support their education.

Appeal of Academic Dismissal

A student may appeal the academic dismissal based on extraordinary circumstances that affected his/her performance during the quarter leading to the academic dismissal. The student must submit an "Appeal of Academic Dismissal" form to the Vice President for Student Services no later than 30 calendar days from the date of the dismissal. Documentation to support a statement of extenuating circumstances is required. The Vice President may request a meeting with the student prior to making a decision.

- If the appeal is granted, the student will be allowed to register at the start of the next quarter. Students who fail to maintain the academic standards for conditional enrollment (above) will be academically dismissed for a period of one year without the right to a second appeal.
- If the appeal is not granted, the student will not be allowed to re-enroll at CBC until either successfully completing an **Academic CPR** workshop or sitting out for four consecutive quarters and petitioning for reinstatement (See "Academic Dismissal" above). Contact the Counseling and Advising Center for further information.

Academic Monitoring

A student who has previously been academically dismissed may be considered at-risk even when s/he is able to bring his/her cumulative, college-level GPA (CLVL) to a minimum of 2.0. In such cases, a student may be required to continue working with a counselor.

Graduation Requirements

Application for Graduation

(REPLACE) (page 27)

Candidates for degrees, certificates, and diplomas should meet with their Counselor, Educational Planner, or program advisor at least two quarters prior to the anticipated completion date. During the last quarter in which all requirements are being completed, students must formally apply for graduation.

Graduation applications for all transfer degrees are available from a Counselor or Educational Planner in the Counseling and Advising Center. Graduation applications for the Associate in Applied Science degrees and certificates are available from program department advisors. Students may graduate at the end of any quarter. To be approved for graduation, a student must:

- Complete all degree/certificate program requirements and comply with the requirements of the College catalog (see Catalog Option section).
- Complete at least one-third of the credits required for a degree or certificate in residence at Columbia Basin College.
- Earn a cumulative GPA of 2.00 or better in all courses applied to a degree or certificate, including credits transferred from other colleges.
- Earn a minimum cumulative grade point average of 2.00 or above in all college-level courses taken at Columbia Basin College.
- Earn a minimum combined cumulative grade point average of 2.00 or above in all college-level courses taken at Columbia Basin College and transferred from other colleges.

DEGREE CHANGE – Page 32

ASSOCIATE IN ARTS & SCIENCES (AA) DEGREE (DTA) REQUIREMENTS**A. COMMUNICATIONS (13 credits)**

Communications: (10 credits in English plus a minimum of 3 credits in Communication Studies)

ENGL& 101;
ENGL& 102 **or** ENGL& 235;
CMST& 210, 220, **or** CMST 101, 110, **or** 260;

MATH PROFICIENCY

Intermediate Algebra Proficiency requirement.

Must do one of the following:

Pass Intermediate Algebra (MATH 095 **or** MATH 098) with a 2.0 or higher.

Pass a Math class that has an Intermediate Algebra prerequisite.

Place into any MATH course 113 **or** above via placement test.

B. QUANTITATIVE/SYMBOLIC REASONING (5 credits)

Choose one class from the Quantitative Reasoning or Symbolic Reasoning courses.

Quantitative Reasoning:

MATH& 107 **or** any MATH course MATH& 141 or higher (except MATH& 171) **or**

Symbolic Reasoning:

CS& 131, CS 102, 162, 202, **or** PHIL 121;

C. HUMANITIES (15 credits)

Complete at least one course from any two of the following groups. Courses must be selected from three different subject areas.

Group 1

ART& 100, ART 116, 117, 118, 119, 120, 121;
MUSC& 105, MUSC 116;

Group 2

CMST 221, 246;
DRMA& 101, DRMA 215;
ENGL& 111, 220, 236, 237, 244, 245, 246, ENGL 140, 195, 203, 257, 264, 265, 266;

Group 3

CC 201, 202, 203;
ENGL 160, 180, 210, 280, ENGL& 254, 255, 256;
HIST& 126, 127, 128;
ICS 120, 125, 130, 135, 222;
PHIL& 101, 106, PHIL 131, 150;
WS 155, 160;

Group 4

World Languages:
ARAB 121, 122, 123;
CHIN& 121, 122, 123;
FRCH& 121, 122, 123, 221, 222, 223, FRCH 260, 261, 262;
GERM& 121, 122, 123, 221, 222, 223, GERM 260, 261, 262;
HEB 121, 122, 123;
JAPN& 121, 122, 123, 221, 222, 223;
RUSS& 121, 122, 123;
SPAN& 121, 122, 123, 221, 222, 223, SPAN 104, 110, 111, 112, 205, 206, 207, 260, 261, 262;
all World Languages courses count as a single subject area.
EFL 101, 111;

D. SOCIAL & BEHAVIORAL SCIENCE (15 credits)

Complete at least one course from each one of the following two groups. Courses must be selected from three different subject areas.

Group 1

PSYC& 100, 200, 220, PSYC 103, 201, 205;
SOC& 101, 201, SOC 110, 150, 269;

Group 2

ANTH& 100, 204, 206, 234;
ECON& 201, 202, ECON 110, 291;
GEO 150;
HIST& 146, 147, 148, HIST 107, 108, 110, 111, 112, 113, 115, 116, 117, 233;
ICS 255;
POLLS& 201, 202, 203, 204, POLS 104, 205;
SSCI 290/2901;

E. MATHEMATICAL & NATURAL SCIENCE (15 credits)

At least 10 credits need to be from science courses. Courses must be selected from two different subject areas.

One course must be a laboratory science. A single math course cannot count for both a mathematical and natural science course and a quantitative skill course.

ANTH& 205, ANTH 214;
ASTR& 101/101L;
BIOL& 100/100L, 160/160L, 175/175L, 211/211L, 212/212L, 213/213L, 241/241L, 242/242L, 260/260L;
BIOL 120, 140/140L, 148/148L, 186/186L, 201/201L, 240/240L, 250/250L, 252/252L, 253/253L, 254/254L;
CHEM& 110/110L, 121/121L, 122/122L, 123/123L, 131/131L, 140/140L, 161/161L, 162/162L, 163/163L, 241/251, 242/252, 243/253, CHEM 254/264, 255/265, 2861-2869, 2901-2909;
ENVS& 101/101L, ENVS 174;
GEOL& 101/101L, 103/103L, 110/110L, GEOL 102/102L;
GEO 101, 120/120L;
MATH& 107, 141, 142, 144, 146, 148, 151, 152, 153, 171, 172, 173, 254,
MATH 113, 147, 243, 246, 255;
NUTR& 101;
PHYS& 100/101, 121/131, 122/132, 123/133, 221/231, 222/232, 223/233;
SCI 110/110L;

F. HEALTH & PHYSICAL EDUCATION (3 credits)

Health lecture or PE activity courses

HE 110, 160, 161, 1611, 170, 171/1711, 210, 215/2151, 220, 230, 232, 240, 250; **or**
PE 1101, 1111, 1121, 1131, 1141, 1151, 1161, 1171, 1181, 1191,
1201, 1211, 1221, 1271, 1281, 1291, 1321, 1331, 1351, 1401, 1411,
1421, 1451, 1461, 1471, 1481, 1491, 1501, 1601, 1611, 1621, 1631,
1641, 1651, 180/1801, 1811, 1871, 1881, 1891, 1901, 2011;

G. ELECTIVES (24 credits)

Courses must be numbered 100 or above. A maximum of 15 credits from restricted electives may be applied. Please consult with your advisor or counselor.

Note:

**Required minimum credits 90.*

**Required minimum cumulative GPA 2.0.*

**A minimum of 30 credits CBC courses.*

**Depending on your major, some course choices may be more appropriate than others.*

**Consult with your counselor or faculty advisor.*

**Maximum 6 credits of PE activity may be applied.*

**3 credits in Health and PE and 3 credits included in restricted electives.*

DEGREE CHANGE - Page 34

GENERAL STUDIES CERTIFICATE

A. Communications (8 credits)

ENGL& 101 (Required 5 credits)

Choose 3 additional credits from the following:

ENGL& 102 **or** ENGL& 235;

CMST& 210, 220, CMST 101, 110, 260;

B. Humanities (10 credits)

Complete at least 10 credits from any of the following courses:

ARAB 121, 122, 123;

ART& 100, ART 116, 117, 118, 119, 120, 121;

CC 201, 202, 203;

PROGRAM CHANGE

Autobody Collision Repair

The Autobody program has been placed on inactive status and has been discontinued effective Spring Quarter 2010. Students pursuing completion of degree or certificate requirements, including general education and major support courses, have until March 2013 to complete those requirements and file for application of the respective degree or certificate.

PROGRAM CHANGE

Automotive Technology

Department Overview The Automotive Technology program is a comprehensive two-year course combining classroom instruction and hands-on training. The program is based on the eight Automotive Service Excellence (A.S.E.) topics in the National Technicians Certification Program to prepare students for the A.S.E. mechanic certification tests.

CBC's Automotive faculty aim to bring innovative technology into the classroom and the lab. Automotive Tech students learn the basics of computer diagnosis as well as traditional tool usage as they participate in the entire repair process, evaluating, repairing, and maintaining vehicles.

For more information, call (509) 542-4746.

The department requires students achieve a minimum grade of 2.0 to be able to continue enrollment in major courses. The Associate in Applied Science degree also requires a minimum grade of 2.0 for each major course. A student who achieves a grade of 1.9 or lower in any required major courses may repeat that course once to attempt to achieve a grade of 2.0 or higher. Exceptions to this policy must be approved by the Dean of the program prior to enrollment and must be based on extenuating circumstances.

Hybrid and High Voltage Vehicle How to maintain and repair Hybrid and High Voltage vehicles safely is the main emphasis for this certificate program. Damage can easily occur from attempting seemingly routine repairs without understanding the electrical systems on Hybrid and High Voltage Vehicles. Upon completion students will be able to diagnose, then maintain, repair, or replace components on Hybrid and High Voltage Vehicles. Prerequisite: CTE Dean permission, successful completion of an AAS in Automotive Technology, or five years experience as an automotive repair technician.

PROGRAM CHANGE – Page 62

Human Development (HDEV)

Human Development (HDEV) courses at Columbia Basin College provide students with a theoretical and practical foundation for human growth and development across the life span. Encompassing a broad spectrum of inter- and intra-personal skills that enhance professional and personal relationships, these courses address such topics as learning theory, tools and techniques to succeed in college and life, career exploration and planning, decision-making, and interpersonal communication. These classes are open to all CBC students and can be taken for personal development or as college-level restricted credits towards the Associate in Arts degree or for personal enrichment.

PROGRAM CHANGE – Page 62

Human Services

The Human Services program has been placed on inactive status and has been discontinued effective Spring Quarter 2010. Students pursuing completion of degree or certificate requirements, including general education and major support courses, have until March 2013 to complete those requirements and file for application of the respective degree or certificate.

Course No.	Course Title	Credits
ICS .120	Survey of Hispanic Culture	5
Humanities Electives (Course selections must also meet the Humanities distribution requirements for the AA Degree.)		10

D. Social & Behavioral Science (15 credits)

Course selections must also meet the Social & Behavioral distribution requirements for the AA Degree.

Course No.	Course Title	Credits
HIST .111	Colonial Latin America or	5
HIST .107	Chicano History	5
POLS& .203	International Relations or	5
ANTH& .206	Cultural Anthropology	5

Psychology or Sociology (See advisor for appropriate selection) 5

Course No.	Course Title	Credits
PSYC .201	Social Psychology or	5
SOC& .201	Social Problems	5

E. Mathematical & Natural Science (15 credits) 15

Course selections must also meet the Mathematical & Natural Science distribution requirements for the AA Degree.

F. Health and Physical Education (3 credits) 3

Health lecture or PE activity courses will satisfy this three-credit requirement.

G. Required Electives (Select 24 credits from the following list:9)

Language (15 credits of Spanish language classes.) 15
This requirement may also be met by demonstrating the ability to write and read at one-year language level. If this requirement is met without taking the courses, the 15 credits may be taken as electives. (See advisor for class selections.)

Additional Electives

A class can only be used to fulfill one requirement.

Course No.	Course Title	Credits
ANTH& .206	Cultural Anthropology	5
ART .120	Art History of Americas	5
HIST .107	Chicano History	5
HIST .108	History of Immigration in the United States	5
HIST .111	Colonial Latin America	5

NEW CERTIFICATE

Manufacturing Technology Changed from Machine Technology

The CBC Manufacturing Technology curriculum includes trade support theory courses in conjunction with laboratory training and general education courses. For more information call (509) 544-2267.

At the end of the program successful students will be able to:

Demonstrate manual machining skills, (operation of lathes, milling machines and surface grinders, tool), grinding skills, and blueprint reading skills operate high tech equipment, such as electrical discharge machines and computerized numerical control machine demonstrate skills in computer-aided drafting, solid modeling, and computer-aided manufacturing use math and problem-solving skills

The department requires students achieve a minimum grade of 2.0 to be able to continue enrollment in major courses. The Associate of Applied Science Degree also requires a minimum grade of 2.0 for each major course. A student who achieves a grade of 1.9 or lower in any required major courses may repeat that course once to attempt to achieve a grade of 2.0 or higher. Exceptions to this policy must be approved by the Dean of the program prior to enrollment and must be based on extenuating circumstances.

NEW PROGRAM

Radiation Protection Technician

The Radiation Protection Technician (RPT) option of the Nuclear Technology program develops technicians who measure and record radiation levels. Technicians also maintain and calibrate radiation protection instruments. A RPT has a key role in fostering a safe work environment for employees working with radioactive materials or in radiation areas. RPTs must be able to assist in the development of procedures for the operation of radiation protection instruments and in the evaluation of plans to limit the dose of radiation workers receive.

Math Proficiency X

1. Intermediate Algebra Proficiency requirement: Must do one of the following:
 Pass Intermediate Algebra (MATH 095 or MATH 098) with 2.0 or better.
 Pass a Math class that has an Intermediate Algebra prerequisite.
 Place into any Math course MATH 113 or above via Placement Test.

B. Quantitative/Symbolic Reasoning (5 credits). 5

Choose one class from the Quantitative Reasoning or Symbolic Reasoning courses.

1. Quantitative Reasoning:

MATH& 107 **or any MATH course MATH& 141 **or** higher (except MATH& 171) **or****

Course No.	Course Title	Credits
MATH .147	Finite Math (Recommended)	5

2. OR Symbolic Reasoning:

CS 102, CS& 131, CS 162, CS 202, **or** PHIL 121

C. Humanities (15 credits)

Course selections must also meet the Humanities distribution requirements for the AA degree.

Required:

Course No.	Course Title	Credits
DRMA& .101	Intro to Theatre or	5
DRMA .215	Survey of Theatre History	5
And 10 additional credits selected from other Humanities electives.		10

Recommended:

CMST. .246	Oral Interpretation	5
ENGL& .220	Intro to Shakespeare	5

D. Social & Behavioral Science (15 credits)

Course selections must also meet the Social & Behavioral distribution requirements for the AA degree.

Recommended:

Course No.	Course Title	Credits
ANTH& .206	Cultural Anthropology	5
PSYC& .100	General Psychology	5
SOC& .101	Intro to Sociology	5

E. Mathematical & Natural Science (15 credits)

At least 10 credits need to be from science courses. Courses must be selected from two different subject areas. One course must be a laboratory science. A single math course cannot count for both a mathematical and natural science course and a quantitative skill course.

Recommended to include:

Course No.	Course Title	Credits
BIOL& .100	Survey of Biology w/Lab &	5
BIOL& .100L*	Survey of Biology Lab	0
GEOL& .101	Intro to Physical Geology w/Lab &	5
GEOL& .101L*	Intro to Physical Geology Lab	0
NUTR& .101	Nutrition	5

F. Health and Physical Education (3 credits)

Recommended:

Course No.	Course Title	Credits
HE .230	First-Aid Safety or	3
HE .240	Stress Management	3

G. Required Electives (26-38 credits)

Course No.	Course Title	Credits
DRMA .1051-1071	Rehearsal and Performance (3 credits required in any combination)	1-3
DRMA .120	Acting-Beginning	5
DRMA .121	Acting-Intermediate	3
DRMA .122	Acting-Advanced	3
DRMA .1261-1281	Stagecraft (3 credits required in any combination)	1-3
DRMA .2201-2221	Acting Studio (3 credits required in any combination)	1-3
DRMA .2251	Touring Children's Theatre (offered fall only)	1-3
DRMA .2271	Touring Rep Part I (2 qtr. commitment)-winter	1-3
DRMA .2281	Touring Rep Part II (2 qtr. commitment)-spring	1-3
DRMA .244	Stage Makeup	2
DRMA .250	Directing for the Stage (offered odd years)	3
Select 6 credits from the following:		
DRMA .130	Stage Movement	2
DRMA .216	Acting for the Camera (offered even years)	2
DRMA .217	Classical Acting	1-3
DRMA .2301	Stage Combat	2
DRMA .248	Stage Management	2

Total Credits Required. 89-101

It is understood that a theatre major will acquire more credits than are transferable to complete this degree.

Important:

*You must sign up for both lecture and lab courses to receive combined lecture and lab credits. Lab credits will display zero as they are included in the lecture credits.

It is extremely important to stay in close contact with your faculty advisor.

It is understood that a theatre major will acquire more credits than are transferable to complete this degree.

COURSE OFFERINGS

NEW COURSE

AG 289

Agriculture Business Concepts • • • • • 5 Credits

This course is designed to address issues pertinent to the agricultural community including global competition for markets, water rights and the environment, agricultural co-ops, immigration, foreign trade, fiscal policy, and working with government agencies. It is intended as a capstone course to bring together several concepts related to agriculture business. Prerequisites: BUS& 101, ECON& 202, ACCT& 201, ACCT& 202, and AFS 101.

TITLE CHANGE

AMGT 317

BAS Special Topics • • • • • 1-5 Credits

An opportunity to participate in a class dealing with special topics related to applied management that are not covered in depth in the existing curriculum. Topics chosen relate to emerging issues in management/business or topics of regional interest within the management/business arena. Prerequisites: enrollment in the Applied Management program and instructor's permission.

TITLE CHANGE

AMGT 389

BAS Independent Study • • • • • 1-5 Credits

A class designed to explore a specific topic of special interest. Students are required to work 55 hours to earn one credit hour. Prerequisite: enrollment in the Applied Management program and instructor's permission.

TITLE CHANGE

AMGT 417

BAS Special Topics • • • • • 1-5 Credits

An opportunity to participate in a class dealing with special topics related to applied management that are not covered in depth in the existing curriculum. Topics chosen relate to emerging issues in management/business or topics of regional interest within the management/business arena. Prerequisites: enrollment in the Applied Management program and instructor's permission.

TITLE CHANGE

AMGT 470

BAS Internship • • • • • 1-5 Credits

This course is designed to provide students with major-related, supervised, evaluated practical training work experiences which may be paid or voluntary. Students are graded on the basis of documented learning acquired through hands-on new experiences in an actual work setting. Prerequisites: enrollment in the Applied Management program and instructor's permission.

TITLE CHANGE

AMGT 489

BAS Independent Study • • • • • 1-5 Credits

A class designed to explore a specific topic of special interest. Students are required to work 55 hours to earn one credit hour. Prerequisites: enrollment in the Applied Management program and instructor's permission.

NEW COURSE

AMT 250

Automotive Technology Systems Review • • • • • 3 Credits

This combination class/lab is designed to give the student a review of basic knowledge and understanding of vehicle systems including: electrical, engines, brakes, heating and air conditioning, automatic transmissions, and engine performance.

NEW COURSE

AMT 251

Hybrid Operations and Safety • • • • • 3 Credits

This combination class/lab is designed to give the student an overview of hybrid/high voltage vehicles. The class will cover safety, driving characteristics, environmental concerns, and hybrid/high voltage energy principles.

NEW COURSE

AMT 252

High Voltage Basic Operations • • • • • 3 Credits

This combination class/lab is designed to give the student an overview of high voltage batteries, transformers, high voltage wiring, dc-dc converters, safety circuitry, three-phase motors, and high voltage control systems.

NEW COURSE

AMT 253

Basic Maintenance and Servicing of Hybrid Vehicles • • • • • 3 Credits

This combination class/lab is designed to give students the theory and hands-on experience to perform basic preventive maintenance of hybrid vehicles.

NEW COURSE

AMT 254

High Voltage Diagnostics • • • • • 3 Credits

This combination class/lab is designed to give the student theories and strategies for diagnosing high voltage and hybrid specific systems.

NEW COURSE

AMT 255

Component Replacement • • • • • 3 Credits

This combination class/lab is designed to give the student theory and hands-on experience of proper removal and replacement of hybrid components.

NEW COURSE

ANTH 214

Biological Anthropology Lab • • • • • 1 Credit

Biological Anthropology focuses on the use of empirical evidence to place humans in perspective within our historical and biological world. The Biological Anthropology laboratory is designed to allow students, through examples and hands-on exercises, to understand the evolutionary processes that have produced modern humans. This course is designed to complement the Biological Anthropology course (ANTH&205). Prerequisite: have taken or concurrently taking ANTH& 205.

DESCRIPTION CHANGE

ART 2011

Photography I • • • • • 1-3 Credits

This course will introduce students to the foundations of photography/digital photography and photographic composition through various assignments, case studies, and a final project. Students will be introduced to fundamental camera controls and tools used to manipulate or enhance photographic images from image-capture to print. Emphasis will be placed on how photography functions as an interpretive medium. Student supplies digital camera and materials. Recommended: ART 111.

DESCRIPTION CHANGE

ART 2021
Photography II • • • • • • • • • • • • • • • • **1-3 Credits**
This course will further develop the advanced student's technical and interpretive understanding of digital photography. Students will choose a photographic topic early in the quarter to investigate and build upon for the remainder of the course. Emphasis will be placed on research of historic and contemporary trends, discussion of personal direction, and constructing a photographic portfolio. Student supplies digital camera and materials. Recommended: ART 111 and ART 2011.

DESCRIPTION CHANGE

ART 2411
Illustration I • • • • • • • • • • • • • • • • **1-3 Credits**
A studio course that applies the elements of design and drawing to a variety of illustration formats. Focus will be on technical skills, application of a wide range of media, and illustrative concepts. Recommended: ART 111 and ART 1131.

DESCRIPTION CHANGE

ART 2421
Illustration II • • • • • • • • • • • • • • • • **1-3 Credits**
A continuation of Illustration I with emphasis on individual development of subject, technique, and concept. A variety of illustration styles and applications will be explored further. Prerequisite: ART 2411.

NEW COURSE

ART 2591
Studio Problems-Photography • • • • • • • • • • • • • • **1-3 Credits**
Individual, contracted, advanced study in photography, studio, and seminar.

NEW COURSE

BUS 225
Innovation I • • • • • • • • • • • • • • • • **2 Credits**
This course will enable individuals and businesses large and small to develop the skills that embrace innovation and could transform their organization. Students will participate in design teams to solve a design challenge based on the IDEO deep dive concept. This process includes observations, sharing results of observation, research, and brainstorming, developing a prototype, comparing prototypes, developing the final product and presenting the final product and why it is an improvement.

NEW COURSE

BUS 226
Innovation II • • • • • • • • • • • • • • • • **2 Credits**
In our more global and diverse organizations today, leaders need to be able to quickly pull together a set of individuals to carry out specific team assignments. Thus, this course focuses primarily on leadership skills needed to develop and promote effective teamwork. In reality, teams can be complex and difficult to lead, and change processes difficult to implement. Consequently, this course will cover concepts and theories regarding the leadership of teams while providing a backdrop of continuous creased self-knowledge and supportive development. The practical application of some of the theories covered in the course will be addressed and participants will have the opportunity to develop hands-on team facilitation skills.

NEW COURSE

BUS 227
Innovation III • • • • • • • • • • • • • • • • **2 Credits**
Innovation III students complete a comprehensive project during class. The project is completed over five weeks in phases: concept, design, formal proposal, implementation, presentation, and report. The project includes and will require the integration of all three of the previous Innovation classes. The emphasis in Innovation III is on brainstorming, project evaluation, team formation, careers, business, intellectual property, professional organizations, and professional ethics, detailed design, and rapid prototyping.

NEW COURSE

BUS 228
Innovation IV • • • • • • • • • • • • • • • • **2 Credits**
The Innovation program defines innovation as putting valuable ideas into action as new products, services, or business models. Many executives view innovation as the best opportunity for sustained organic growth, increased profits, and as one of their three key initiatives in the coming years. This course will provide the opportunity for students to demonstrate that he/she has learned the theory, concepts, and skills from the innovation coursework and can apply it in real world situations. The student will also demonstrate a comprehensive analysis of on-going innovation needs for an organization or business and work directly with team(s) and client(s) to apply innovation concepts. Prerequisites: Innovation I, II, and III.

DESCRIPTION CHANGE

CS 101
Introduction to Computers and Information Technology • • • • • • **5 Credits**
CS 101 is a five-credit introductory class designed to meet the needs of all students as defined in CBC's "Using Information Technology & Tools Student Learning Outcome." The class emphasizes the cognitive aspects of dealing with Information Technology (IT): evaluating information, learning practical IT skills, solving problems, and dealing with information-related issues such as privacy, security, ethics, etc. Students will also learn computer basics using Windows, Word, Excel, PowerPoint, email, and Internet skills to locate, present, and report information.

DESCRIPTION CHANGE

CSRE 002
Traffic Control • • • • • • • • • • • • • • • • **•0 Credit**
Columbia Basin College offers the Evergreen Flagger Training Certification program which is the most recognized course for Flagger Training for Washington state. This Flagger card is accepted in Oregon and Idaho as well. The handbook and instructor's manual are constantly updated and contain all the timely information and requirements.

CREDIT CHANGE

DRMA 120
Beginning Acting • • • • • • • • • • • • • • • • **5 Credits**
An introductory course in acting fundamentals. Basic fundamentals such as the playing of actions and objectives, imagination, relaxation, and concentration are explored through improvisation, scene work, and the study of theory. (Previously THA 120)

PREREQUISITE CHANGE

DRMA 250
Directing for the Stage • • • • • • • • • • • • • • • • **3 Credits**
An introductory course in the theory and practice of directing for the stage. Students explore analysis, interpretation, and concept formulation of dramatic literature. Communication and collaboration is emphasized. Prerequisite: DRMA 120 or instructor's permission. (Previously THA 250)

TITLE CHANGE

ECON 305

Managerial Economics [S/B] • • • • • 5 Credits

The course will cover allocation of resources, economic systems, economics institutions and incentives, markets structures and prices, productivity, international economics, the global marketplace, aggregate supply and demand, and public policy towards business. As a final project each student, using information from the class, will prepare a report as to how economics impacts a specific business/company. Prerequisite: acceptance into the Bachelors of Applied Science in Applied Management program.

NEW COURSE

ECON 310

Comparative Economic Systems • • • • • 5 Credits

ECON 310 first classifies and then examines the major economic systems of the world. The course will focus on a general understanding of how economic systems work and how economic theories of growth and development interact with government policy, history, and culture to explain economic performance of different countries. Economies examined in some detail will include several advanced market capitalist countries (e.g., the former Soviet Union, Poland, and China), and other East Asian economies (e.g., South Korea, Malaysia, and India). The economies in Africa and Middle East will also be covered. Prerequisite: enrollment in the BAS program or special permission.

NEW COURSE

ELT 124

Direct Current Circuits • • • • • 5 Credits

Basic principles of electricity and the applications of the fundamental laws to direct current networks. A study of electrical components, magnetism, inductance, capacitance, and elementary network analysis. Prerequisite: ELT 111 with a 2.0 GPA or higher.

NEW COURSE

ELT 134

Alternating Current Circuits • • • • • 5 Credits

Fundamental principles of alternating current: sinusoidal and non-sinusoidal. A study of impedance, phase shift, coupling networks, transformers, and series and parallel resonance using standard vector notation. Prerequisite: ELT 124 with a 2.0 GPA or higher.

NEW COURSE

ELT 151

Electronics 1 • • • • • 5 Credits

The fundamental theory of transistors and other solid-state devices and its verification. Amplifiers, oscillators, and other application using a sinusoidal wave are analyzed. Prerequisite: ELT 134 with a 2.0 GPA or higher.

NEW COURSE

ELT 161

Electronics 2 • • • • • 5 Credits

Construction, characteristics, and application of the various electron tube and semi-conductor devices including newer solid-state devices. Prerequisite: ELT 151 with a 2.0 GPA or higher.

TITLE CHANGE

ENGL 410

Professional & Organizational Communications [C] • • • • 5 Credits

A study of the skills necessary to communicate effectively in the workplace. Topics include selection of the proper channel and medium for information delivery, team building, business etiquette, and professionalism. This course has a major writing requirement focusing on practical business writing including: students will analyze and prepare correspondence, proposals, and reports. In addition students will prepare an industry specific communication project as final assignment. Prerequisites: successful completion of ENGL& 101 and acceptance into the Bachelors of Applied Science in Applied Management program.

TITLE CHANGE

ENVS 310

Environmental Issues [M/S] • • • • • 5 Credits

Basic concepts of ecology and environmental science are discussed and illustrated through lab experiences and then further elaborated through discussing environmental issues from a strategic business perspective. Discussions include how environmental pressures (e.g. sustainable development) and environmental problems (e.g. global warming, air pollution, waste-disposal), impact corporate mission, competitive strategy, technology choices, product development decisions, production processes, and corporate responsibility. Prerequisite: acceptance into the Bachelors of Applied Science in Applied Management program.

DESCRIPTION CHANGE

FYI 103

First Year Introduction for Trades • • • • • • • • • 1 Credit

An introduction to the academic and trades culture, purpose, expectations, resources, procedures, policies, and shop safety. Required for all degree or long-term certificate seeking students in Agriculture and Industrial Equipment Technology, Automotive, Machine, and Welding Technology prior to enrollment in second quarter of classes. Students must earn a 3.0 in FYI 103 to register for their second quarter of classes.

NEW COURSE

ICS 100

Cultural and Historical Linked to Travel • • • • • • • • • 1-3 Credits

An introduction to the history, culture, geography, art, and language of a country or countries, to be followed by a required trip to the area studied for an immersion experience.

NEW COURSE

MATH 092

Special Topics in Mathematics • • • • • • • • • • 1-10 Credits

This course is designed to give special mathematical topics to those students whose needs are not met with the existing curriculum.

PREREQUISITE CHANGE

MATH 095

Intermediate Algebra • • • • • • • • • • 5 Credits

This course is a rapid coverage of high school-level algebra. Topics include: integer and rational exponents, operations with polynomials and factoring, operations with rational and radical expressions, solving quadratic and rational equations, graphs of lines and parabolas, systems of equations, complex numbers, functions, and applications of all of the aforementioned. Prerequisite: 2.0 or better in MATH 097 is acceptable but not advised or COMPASS test placement. (Previously MTH 095)

PREREQUISITE CHANGE

MATH& 141

Precalculus I [M/S] [Q/SR] **5 Credits**
 Designed to prepare students for entry into basic calculus. Precalculus I together with Precalculus II is designed to prepare students for entry into the calculus sequence: MATH& 151, MATH& 152, MATH& 153, and MATH& 254. The topics include: absolute value, complex numbers, linear and quadratic equations, rational, polynomial, exponential and logarithmic functions, inverse functions, theory of equations, and sequences and series. Prerequisite: grade of 2.0 or better in MATH 095 or COMPASS test placement. Students completing MATH& 141 may not receive graduation credit for MATH& 144. (Previously MTH 154)

NEW COURSE

MATH& 171

Math for Elementary Educ I **5 Credits**
 An introduction to problem-solving principles and strategies, sets and logic, numeration systems, properties of the real number system and its subsystems, and applications of mathematics. Primarily for elementary education majors. This course satisfies the quantitative skills requirement for the AA degree provided that MATH& 172 (previously MATH 122) is also successfully completed. Prerequisite: grade of 2.0 or better in MATH 095, MATH 098, or COMPASS test placement. (Previously MTH 121)

NEW COURSE

MATH& 172

Math for Elementary Educ II **5 Credits**
 An informal approach to the basic ideas of geometry; including construction, congruence and similarity, transformations, symmetry, measurement, and coordinate geometry. This course satisfies the quantitative skills requirement for the AA degree, provided that MATH& 171 (previously MATH 121) has also been successfully completed. Prerequisite: grade of 2.0 or better in MATH& 171. (Previously MTH 122)

NEW COURSE

MATH& 173

Math for Elementary Educ III **5 Credits**
 An elementary introduction to algebraic reasoning, probability, and statistics. Primarily for elementary education majors. This course satisfies the quantitative skills requirement for the AA degree, provided that MATH& 171 (previously MATH 121) has been successfully completed. Prerequisite: grade of 2.0 or better in MATH& 171. (Previously MTH 123)

NEW COURSE

MOP 111

Intro to Machine Operations **7 Credits**
 This course is designed to give the students skills using measuring instruments, and the concepts of machining with a metal lathe.

TITLE CHANGE

MT 102

SolidWorks® for Manufacturing Technology I **5 credits**
 An introduction to solidworks design software. The intent is to guide students through the software so they develop an understanding of how parts are designed as well as the concepts of blueprint construction/reading. The principles of geometric construction and constraints such as perpendicularity, concentricity, and parallelism are stressed so students are able to understand the workings of a precision model. Prerequisite: CA 100 or instructor's permission.

NEW COURSE

MT 202

SolidWorks® for Manufacturing Technology II **5 Credits**
 This course prepares students to take the Certified SolidWorks Associate Exam. Prerequisite: MT 102 or instructor's permission.

CREDIT CHANGE

NT 152

Internship **1-7 Credits**
 Students serve an internship of approximately 320 hours with a company that uses nuclear technicians in radiation protection, nuclear reactor operations, or nuclear reactor maintenance. Students are expected to apply learned skills and training to be a productive employee and the employer is expected to place students in an environment that will build on the first year of study and enhance knowledge of working in the nuclear industry. Prerequisites: instructor/department chair approval and cumulative GPA of 2.5 or higher.

TITLE CHANGE

PHIL 121

Symbolic Logic [Q/SR] **5 Credits**
 study of the principles of formal thinking, which includes an analysis of symbolic theory within a context that encourages the development of logical skills. This course can be used as an elective or quantitative reasoning. Previous completion of MATH 095 is highly recommended. (Previously PHI 121)

TITLE CHANGE

PHIL 305

Professional Ethics [H] **5 Credits**
 This course examines the role of ethics and social responsibility in the management of public and private sector organizations and businesses. An emphasis is on contemporary trends in corporate responsibilities with respect to ethical, legal, economic, and regulatory conditions in the global marketplace. The use of the case study approach is applied to a contemporary business ethical issue. Prerequisite: acceptance into the Bachelors of Applied Science in Applied Management program.

NEW COURSE

PSYC 280

Positive Psychology **5 Credits**
 Historically, psychology has been somewhat negative in orientation, through an emphasis on human weaknesses and liabilities, abnormalities, developmental difficulties, pathology, and treatment modalities. Mental illness, rather than mental health, has been a primary focus for research and practice. The present course will describe how the scope of psychology has recently been broadened to understand positive emotion, build strength and virtue, and provide a framework for creating what Aristotle called the good life. Topics will include happiness (subjective well-being, positive emotions), optimal performance, personal fulfillment, optimal wellness/medical health, emotional intelligence, creativity, optimism, hope, self-efficacy, goals and life commitments, wisdom, spirituality, meaning and purpose in life, and the civic virtues. Prerequisite: PSYC& 100.

NEW COURSE

RPT 111

Radiation Fundamentals **5 Credits**
 This course provides future radiological protection technicians with an overview of radioactivity, sources of radiation, and radioactive decay. Emphasis is placed on plant safety, radiological hazards, and radioactivity containment. Prerequisites: completion of NT 111, NT 114, NT 131, and NT 141 or 142 with 2.5 grade or better.

NEW COURSE

RPT 121

Radiation Monitoring • • • • • **5 Credits**
Principles of radiation detection and measurement principles. Application of radiological survey and analysis instruments, sample collection equipment, and calibration sources and equipment. Prerequisites: completion of NT 111, NT 114, NT 131, and NT 141 or 142 and MATH& 146 with 2.5 grade or better.

NEW COURSE

RPT 131

Radiation Effects • • • • • **5 Credits**
Radiation biology, radiation effects on simple chemical systems, biological molecules, cells, organisms, and humans. Stochastic vs. deterministic effects, units of exposure, dose and dose equivalent, external dosimetry, internal dosimetry, control of external and internal exposure, detector and instrumentation systems for measuring dose. Prerequisites: completion of NT 111, NT 114, NT 131, and NT 141 or 142; RPT 111 and RPT 121; BIOL& 175/BIOL& 175L with 2.5 grade or higher.

NEW COURSE

RPT 141

Radioactive Material Handling • • • • • **5 Credits**
Radioactive material control and methods to minimize and control external exposure and airborne radioactivity. Prerequisites: completion of NT 111, NT 114, NT 131, and NT 141 or 142; RPT 111 and RPT 121 with 2.5 grade or better.

NEW COURSE

RPT 211

Radiological Safety and Response • • • • • **5 Credits**
This course focuses on contamination control and appropriate responses to radiological events. Prerequisites: completion of RPT 111, RPT 121, RPT 131, and RPT 141 with 2.5 grade or better.

NEW COURSE

RPT 222

Radiation Protection • • • • • **5 Credits**
Practical applications and demonstrations of radiation protection and health physics. Radiological protection standards, contamination control, radiological incident evaluation and control, decontamination, and environmental monitoring. Prerequisites: completion of RPT 111, RPT 121, RPT 131, and RPT 141 with 2.5 grade or better.

DESCRIPTION CHANGE

RDG 080

Study Techniques • • • • • **1-3 Credits**
Students become active learners by developing academic study strategies for college. Topics include needs assessments, campus resources, self (time) management, creating a study system, and test preparation and taking. *Grading is pass/no credit.* This is a directed learning course offered by the Learning Opportunities Center (LOC). Instruction includes textbook and web activities.

DESCRIPTION CHANGE

RDG 081

Study Techniques • • • • • **1-3 Credits**
Students become active learners by developing academic study strategies for college. Topics include needs assessments, campus resources, self (time) management, creating a study system, and test preparation and taking. *Grading is pass/no credit.* This is a directed learning course offered by the Learning Opportunities Center (LOC). Instruction includes textbook and web activities.

DESCRIPTION CHANGE

RDG 082

Study Techniques • • • • • **1-3 Credits**
Students become active learners by developing academic study strategies for college. Topics include needs assessments, campus resources, self (time) management, creating a study system, and test preparation and taking. *Grading is pass/no credit.* This is a directed learning course offered by the Learning Opportunities Center (LOC). Instruction includes textbook and web activities.

DESCRIPTION CHANGE

WT 100

Basic Welding • • • • • **1 Credit**
A basic introduction to welding designed for students exploring the trade. Introductory information about various welding processes is presented, including safety concepts. Concurrent enrollment in WT 1001 is required.

DESCRIPTION CHANGE

WT 1001

Basic Welding Lab • • • • • **1-3 Credits**
This class is designed for students wanting to explore the welding trade. It is also available for Automotive students to meet their required welding class. This class provides hands-on demonstrations, as well as personalized instruction of various welding applications, including safety, set-up and tear down, and methods of operation for oxy-acetylene, arc welding, and wire feed welding.
