### Definition of "Job Related" Education

The Internal Revenue Service states that "job related" education must:

- Be required by your employer or the law to keep your present salary, status, or job (and serve a business purpose of your employer) OR
- Maintain or improve skills in your present job.

HOWEVER, even if your education meets one of the above requirements, it is NOT excludable if it:

- Is needed to meet the minimum educational requirements of your present trade or business OR
- Is part of a program of study that can qualify you for a new trade or business, even if you have no plans to enter that trade or business. (A change of duties is NOT a new trade or business if the new duties involve the same work you did in your old job)
