

POLICY TYPE: BOARD-STAFF LINKAGE BSL-5

POLICY TITLE: MONITORING EXECUTIVE PERFORMANCE

Monitoring executive performance is synonymous with monitoring organizational performance against Board policies on *Ends* and *Executive Limitations*.

1. The purpose of monitoring is simply to determine the degree to which Board policies are being fulfilled. Information which does not do this will not be considered to be monitoring. Monitoring will be as automatic as possible, using a minimum of Board time so that meetings can be used to create the future rather than to review the past.
2. A given policy may be monitored in one or more of three ways:
 - a. Internal report: Disclosure of compliance information to the Board from the President.
 - b. External report: Discovery of compliance information by a disinterested, external auditor, inspector or judge who is selected by and reports directly to the Board. Such reports must assess executive performance only against policies of the Board, not those of the external party unless the Board has previously indicated that party's opinion to be the standard.
 - c. Direct Board inspection: Discovery of compliance information by a Board member or the Board as a whole. This is a Board inspection of documents, activities or circumstances directed by the Board which allows a "prudent person" test of policy compliance.
3. Upon the decision of the Board, any Governance policy can be monitored by any method, at any time. For regular monitoring, however, each relevant *Ends* and *Executive Limitations* policy will be classified by the Board according to frequency and method.
4. Each June, the Board will conduct a formal evaluation of the President. This Evaluation will focus on the monitoring data on *Ends* and *Executive Limitations* policies provided during the previous year.

This Evaluation can be modified to include additional criteria to this basis of focus so long as it is agreed upon with the President, and has been specified 1 year in advance of the Evaluation. An example of this additional criteria could be to include discretionary "360° degree feedback" from within the organization.
